Butler's Tire & Accessories, a business in Pensacola, FL, is setting itself apart as being the best tire dealer Pensacola has to offer. They are proud to announce that they now offer more products to their clients, and that all of their products come with a full guarantee. The business is incredibly popular in the Pensacola community.

Jim Butler, founder and owner of Butler's Tire & Accessories, says: "The tire and accessories division of Butler's opened in 2008. By 2009, we knew that we would go in the direction of offering used tires and auto part accessories. Since then, we have focused on finding the best quality parts and tires, and we're very happy to announce that we have once again been able to increase our stock."

Besides new Pensacola tires, the company now also offers used tires, flat repair, installation of 12" to 22" tires, reconditioned batteries, used batteries, center caps, hubcaps, aftermarket stereos, used custom aftermarket rims, and various other vehicle accessories. They set themselves apart by keeping a computerized inventory of all their used and new tires, ensuring that they can always provide their customers with real time information. The company's prices include installation, balancing, and tire disposal, aiming to take the guessing game out of what the real price will be.

Those who have used Butler's Tire & Accessories have been very happy with the services they have received. "The people at Butler Tires are great," says Summer K. on the company's Facebook page. "I recently needed tires for my vehicle but did not want to pay new prices. They were able to install a matching set of 4 tires for me and I only paid 1/2 the price of new tires. I have recommended Butlers to my family members and would send anyone looking for fast and friendly service to them."

Already known as offering the best new tires Pensacola has to offer, the company has big plans for the future. Although their main tire shop is in Pensacola, they already have numerous other locations and have plans to further expand their operations. In so doing, they will be better able to serve all of Florida.
