

NextDay Cabinets LLC Highlights Chantilly Showroom as Wholesale Cabinets Resource for Trade Professionals

October 13, 2026

CHANTILLY, VA - October 13, 2026 -
NextDAY Cabinets is drawing attention to the role of its Chantilly showroom as a trade-focused distribution resource serving contractors, builders, remodelers, cabinet dealers, designers, and other construction professionals across Chantilly, Northern Virginia, and the greater Washington DC metropolitan area.

Beyond product selection, the Chantilly location supports professional design work through kitchen and bath design assistance, allowing contractors and dealers to plan layouts before placing orders. Trade customers can arrange pickup at the showroom or request delivery, providing flexibility for job sites and scheduling across the Northern Virginia and Washington DC market.

Professionals sourcing wholesale cabinets in Chantilly have access to cabinetry from a range of manufacturers, including Shiloh Cabinetry, Kith Kitchens, Waypoint Cabinets, Marsh Furniture, Forevermark Cabinets, Golden Home, Wolf Home Products, Mantra Cabinets, and Lineadecor. The showroom carries

kitchen cabinets, bathroom vanities, and related products, giving trade customers the ability to compare brands, finishes, and configurations within a single cabinet store environment.

The showroom also reflects the company's broader emphasis on serving construction professionals who require consistent product availability and clear purchasing options. By concentrating cabinet brands, vanities, and design services under one roof, the Chantilly location aims to reduce the coordination burden that often accompanies multi-vendor sourcing.

The Chantilly showroom is one of several NextDAY Cabinets locations across Virginia, Maryland, and the greater Chicago market, with additional showrooms in Alexandria, Woodbridge, and Richmond, Virginia, as well as Beltsville, Maryland, and the Elk Grove Village area near Chicago, Illinois. This multi-location presence extends the company's distribution footprint for trade customers in multiple regional markets.

The NextDAY Cabinets Chantilly showroom operates as a supply point where trade professionals can view product displays, evaluate cabinet lines in person, and coordinate purchasing for active projects. The location functions primarily as a supplier and distributor rather than a direct-to-homeowner remodeling business, aligning its operations with the needs of the construction and design trades throughout the region.

NextDAY Cabinets is a distributor of all-wood kitchen cabinets and bathroom vanities serving contractors, builders, remodelers, cabinet dealers, and designers. The company offers cabinetry from multiple manufacturers, along with closet solutions, a custom paint program, bathroom products, flooring, and kitchen accessories. Through its network of showrooms, NextDAY Cabinets provides product displays, design support, and pickup and delivery options for construction and design professionals.
