

Business Broker Firm Launches Nationwide Services To Help With Selling One's Business

June 28, 2016

June 28, 2016 - PRESSADVANTAGE -

1-800-Biz-Broker, based in Riverside, California, has announced a new suite of services for business owners around the nation. The company is moving to expand by licensing business brokers nationwide. 1-800-Biz-Broker is a network of business brokers specializing in confidential business sales. Business owners can connect with a local business broker by calling the company directly. Spokesperson Pablo Fonseca says, "Selling a business can be difficult, particularly for those who are not sure where to begin and especially keeping the process confidential. That's where we come in."

Fonseca explains that they work as a consultant, preparing the business for sale, developing a pricing strategy development, and marketing the business for sale confidentially. While they have been assisting local California businesses for quite some time, Fonseca says that are now offering their services to nationwide clients.

"We have been in the business over 10 years and have developed the skills, network, and knowledge needed to help you plan a successful exit strategy. We begin with a business valuation, and ensure that you receive top dollar when you sell," Fonseca says.

He says that they can also manage the escrow and the disclosure process, facilitate the transition and training period, and ensure that businesses are receiving the most money possible when they sell. Fonseca recommends that business owners who are considering selling their business visit the company on their website, where tips and strategies are offered for selling, as well as free reports that can be downloaded that can help with the selling process.

In addition to helping business owners to prepare for and sell their businesses, 1-800-Biz-Broker also offers a list of featured businesses for sale, for those who are considering purchasing. The company states that they work with entrepreneurs to ensure that they are completely satisfied with their entire transaction.

Those interested in learning more about the services that the company is now offering nationwide can visit them on their official website, where a complete list of services as well as resources and tips can be found. Fonseca says that business owners who feel they are ready to sell can contact the company to begin the valuation.
