Travel Gear Company Launches New Ultimate Travel Satchel Bag

January 12, 2017

January 12, 2017 -
Freedom Travel Gear, a premier travel necessity company, has recently announced the launch of a new useful travel gear product. The company's Ultimate Travel Satchel is now available for purchase through the company. The travel satchel bag, which can be seen at https://www.freedomtravelgear.com/products/the-ultimate-crossbody-travel-bag-offer, is a custom made and unique stylish satchel that the company states can easily store any number of traveling necessities.

"We're excited to finally be able to announce this product launch," says Stephanie Jones with Freedom Travel Gear. "It's something that we have been working on for some time, and we believe that it is a product that will meet a number of travelling needs."

Stephanie Jones says that the satchel bag provides a place for passports as well as iPhones, credit cards, tickets, notes, USB cords, cash, pens, and more. The satchel is also portable and can be easily hung from the shoulder without too much weight that could cause pain or discomfort.

More on the bag can be seen on the Freedom Travel Gear official Facebook page at https://www.facebook.com/Best-Travel-Gear-Of-2016-1368463993169479/. Jones states that the bag is perfect for those who are traveling, whether for short or long distances. Also, it makes it much easier to keep passports, cash, and other needed items within easy reach while going through airports or other travel stations. The company states that the bag is designed with travelers of all ages in mind, and can be used to store various supplies for children as well as adults.

"Part of the design is that it is a very comfortable satchel," Jones states. "We thought about what people want, what they need when traveling, particularly when traveling for long periods of time. Comfort was the first thing that came to mind, followed by something that gives you enough space to store all of your essentials; those things that you need to be able to grab quickly."

Those interested in learning more about the new product or the company, or travelers who would like to stay

up to date on Freedom Travel Gear and their new product launches can follow the company on their official Twitter page at https://twitter.com/hot_travel_gear.
