

Award Store In Suwanee Announces New Acrylic Award Products

January 19, 2017

January 19, 2017 -

Specialty Engraving & Trophies, Inc. in Suwanee, Georgia, has announced new acrylic awards products. The company provides specialty awards and engraving for a number of products, which now includes a number of plain or colored glass awards. This company has been providing promotional products Suwanee organizations have relied on for many decades.

"We put our customers first in everything we do," says Carey Wilson with the company. "From our turnaround time to our products, we will always ensure that you get what you need to make your moments special."

The company has been providing award and promotional products since 1958 and now has a large range of products in various styles, colors, and sizes. Wilson states that their acrylic line of awards products offers something for every celebration and every need.

"Whether you are celebrating a retirement or praising an employee for dedication to their job, we have an award Suwanee companies can depend on to make sure that it is a milestone to remember," Wilson states. "From Little League trophies to employee of the month plaques, we've got you covered."

Wilson states that the company normally produces and finishes custom awards within five business days or less and states that they cater to local customers because buying locally offers a number of benefits, not the least of which is speed. She states that those purchasing locally also have the added benefit of being able to quickly correct mistakes and that the company can typically do that within a day or less.

When it comes to giving awards, such as an acrylic award Suwanee organizations have been relying on Specialty Engraving & Trophies, Inc. for more than 50 years and Wilson states that they plan to serve for an addition 50 years or longer. Their newest acrylic award products are now available to be viewed on the official company website, where employers and others can also take a look at the entire line of products and services that the company offers. Products currently include acrylic as well as custom art and crystal awards, monthly recognition programs, plaques, and a number of other trophies and products for a variety of business and organizational needs. Those interested can view the entire line and learn more about the company on their official website.
