Coastal Kids Announces Late Summer Babysitting Services In South Walton

July 29, 2016

July 29, 2016 - PRESSADVANTAGE -

Coastal Kids Babysitting Service, LLC in Santa Rosa Beach, Florida, has announced the availability of babysitters for vacationers visiting South Walton. The service offers qualified sitters for parents who want to get out and explore while vacationing, but prefer to have their children enjoy themselves too.

Becky Andrews Garea, Sitter Coordinator at Coastal Kids Babysitting, says, "If you're planning to have a summer or fall vacation in South Walton, we've got the sitter for you. For parents who want to have a night out or maybe want to parasail or do something that they feel smaller children wouldn't enjoy, we provide sitters."

Garea states that the company provides sitters who go to the parents, so there are no worries of dropping children off at a strange facility. They will come to the condo, hotel, or rental home and provide activities for the children, such as games, arts and crafts, so that they can also have some fun.

"We want them to have fun and create their own beautiful memories that they will take home with them," says Garea.

Garea states that the company knows how difficult it can be for vacationing parents to find a sitting service that is both trustworthy and affordable. She says that parents can contact the company to inquire about rates, recommendations, and qualifications prior to hiring a sitter.

The company handpicks all babysitters, and Garea states that she has known many of them for years. Being a mother and grandmother herself, Garea says that she knows just how anxious parents can be when choosing a new sitter, particularly one that is not in their own local area, and she says that she picks sitters based on the specific needs of each family to help put those fears to rest.

All babysitters with the company are professional and experienced, and have CPR and First Aid certifications. They are all thoroughly background checked according to Garea to ensure that parents are getting someone honest, trustworthy, and safe for their children.

Garea says that what truly sets them apart from other services is that they create happy memories, as opposed to just "sitting" with children. The company provides services throughout Destin, and now in South Walton. More about them can be seen on their Facebook page at www.facebook.com/coastalkidsbabysitting.
