After Overdosing at Another Drug Rehab, Florida Resident Finally Finds Help and Hope at Legacy Healing Center

May 24, 2021

May 24, 2021 -
Pompano Beach, FL ? Finding the right treatment center is key to achieving long-term recovery from addiction. Harrison, a Florida resident, found just that in Legacy Healing Center in Pompano Beach. He left the behavioral health center with new tools and resources to stay sober that would help him reclaim the life he had before he started using drugs. He was moved to leave the treatment center a five-star review on Google to help others in need find effective treatment.

Before his stay at Legacy, Harrison had just experienced an overdose while in treatment at another rehab facility. ?Before I came to Legacy, I had just overdosed after using drugs inside a previous treatment center, I felt like there was truly no hope for me to quit,? he recalls.

Unfortunately, stories like Harrison?s are not uncommon. Failed treatment happens and is one of the main reasons why addicts hesitate to seek help. Some people even fall victim to drug rehab scams that prey on their desperation and hope, often leaving them in a worse state than they were in before treatment. Scammers promise high-quality inpatient care but do everything possible to keep patients in their program, even allowing open drug use.

One way to avoid rehab scams is by thoroughly researching addiction treatment centers and hearing what former clients like Harrison have to say about the facility. In his Google review, Harrison said ?Once I got to Legacy, I immediately felt welcomed by the staff. Everyone from the techs to the owner made me feel noticed and as if I was not just another client.?

He went on to say, ?Legacy provided me with enough freedom to live a functional sober life while doing everyday tasks and helped me develop new healthy patterns, while still having the structure and therapy time

on a daily basis to help with my addiction.?

Legacy Healing Center?s program can be a good fit for a wide range of people because of the individualized, holistic, and client-centered approach they take. They teach their patients new skills that can be applied to real-life situations while also helping them discover the root causes of their addiction so they can achieve true healing. Harrison discovered his own unique triggers and how to cope with them in healthier ways. He said, ?I truly learned how to say no to drugs when faced with temptation, which had been something I always struggled with in the past.?

Harrison found a brand new, sober life that has changed everything for the better. ?Me and my family have a healthy relationship after years and I am back on the path towards being successful. For the first time in years, I am back to living a normal life, working, and going to school while staying sober. My social life is amazing, and I know how to say no when faced with any temptation. Legacy gave me back the life I had wanted for years!?

Success stories like Harrison?s can be inspirational for many, helping people find hope and assurance that sober living is possible. With the right foundation and effective treatment, anyone can have a healthy fulfilling life again. Legacy Healing Center offers just that by setting a strong foundation and addressing underlying issues that drive addiction.
