

Riverbend Plumbing LLC Confirms Status as A+ BBB Accredited Local Business

November 05, 2026

FLEMING ISLAND, FL - November 05, 2026 -
Riverbend Plumbing LLC, a family-owned plumbing company serving Fleming Island, Florida and surrounding communities, has confirmed its standing as an A+ rated, BBB Accredited Business Riverbend Plumbing LLC, reflecting its ongoing commitment to honest work and dependable service across the region.

Accreditation by the Better Business Bureau was granted in June 2024, following an evaluation of the company's business practices, customer service record, and transparency. The A+ rating represents the highest grade issued by the organization and is based on factors including complaint history, time in business, and adherence to established standards. The company has operated locally since 2019 and continues to serve Orange Park, Middleburg, Green Cove Springs, and the greater Jacksonville area.

Riverbend Plumbing LLC provides a wide range of residential and commercial plumbing services, including drain cleaning, leak repair, water heater installation and maintenance, home repiping, sewer line work, remodeling support, and 24-hour emergency response. The company is licensed through the Florida

Department of Business and Professional Regulation and staffs licensed, insured professionals for each project. It also offers financing options to help customers manage the cost of larger repairs.

Allen Danter, owner of Riverbend Plumbing LLC, noted that the accreditation reflects the standards the company has worked to maintain since its founding. "Accreditation from the Better Business Bureau is a measure of accountability, and it reinforces the way the company has always approached its work," Danter said. "Customers want to know that the business handling their home is held to a clear standard, and the A+ rating helps provide that assurance."

The Better Business Bureau evaluates accredited businesses on an ongoing basis, requiring continued compliance with its code of practices. For a plumbing provider, this includes transparent pricing, responsiveness to customer concerns, and the resolution of disputes in good faith. Riverbend Plumbing LLC has maintained upfront pricing with no hidden fees as part of its standard approach.

Danter added that accreditation plays a practical role for homeowners researching service providers. "When someone faces a plumbing emergency, there is often little time to vet a company," he said. "A recognized rating gives people a reliable starting point, and the company is committed to living up to that expectation on every call."

The company was recently voted "Best of Clay 2025" in the plumbing category, a recognition based on community input. Details regarding services and accreditation are available through the Riverbend Plumbing LLC website.

Founded in 2019 and incorporated in 2022, Riverbend Plumbing LLC is a family-owned and operated plumbing company based in Fleming Island, Florida. The company also serves residential and commercial clients in Orange Park, Green Cove Springs and throughout Clay County and the Jacksonville area, offering drain cleaning, leak repair, water heater services, home repiping, sewer line work, remodeling, and around-the-clock emergency plumbing. Riverbend Plumbing LLC is licensed, insured, and accredited by the Better Business Bureau.
