Jay's Plumbing, Heating & AC Repair Announces New Corporate Headquarters Coming to Mount Airy

November 25, 2026

Mt Airy, NC - November 25, 2026 -
Jay's Plumbing, Heating & AC Repair has purchased just over six acres in Piedmont Triad West Corporate Park, located off Highway 601 in Mount Airy, as the future site of a new corporate headquarters. The acquisition marks a significant step in the locally owned company's ongoing growth and its long-term commitment to the Mount Airy community.

Plans for the property include a state-of-the-art facility spanning 20,000 to 25,000 square feet. The building is designed to support the company's continued expansion while creating additional work, training, and gathering spaces for its team of technicians and staff. The investment reflects the company's focus on strengthening its operations and developing its workforce in the years ahead.

"This new facility represents an investment in the team, the future of the company, and the Mount Airy community that has supported the business for years," said Lorie Shumate, spokesperson for Jay's Plumbing, Heating & AC Repair. "The expanded space will allow for enhanced training and room to grow, ensuring the same level of family-first service the community has come to expect."

Jay's Plumbing, Heating & AC Repair is a locally owned and trusted provider known for friendly, family-first service delivered by certified, skilled technicians. The company operates 24/7, offering homeowners and businesses around-the-clock availability for both routine needs and urgent situations.

The company provides a broad range of services across cooling, heating, indoor air quality, plumbing, and electrical work. Cooling services include AC installation, maintenance, and repair, air handler repair and installation, ductless mini-split installation and repair, emergency HVAC repair, HVAC installation and maintenance, and thermostat repair and installation. Heating services include furnace installation, maintenance, and repair, geothermal heat pump installation and repair, and heat pump services.

Indoor air quality offerings include AC and furnace filter replacement, air duct cleaning and sealing, dehumidifier installation and repair, heat and energy recovery ventilator installation, humidifier installation and repair, HVAC ductwork repair, and HVAC UV light installation. Plumbing services range from drain cleaning, emergency plumbing, and faucet repair to home repiping, hydro jetting, plumbing inspections, rooter services, sewer line and pipe repair, sump pump service, tankless water heater installation, water heater repair and replacement, water leak detection, and water softener installation. The company also provides whole-house generator installation and repair.

Beyond its service work, Jay's maintains a strong presence in community life. Through its Giving Back initiatives, the company supports local causes and residents, reflecting a commitment that extends beyond day-to-day operations. Community members interested in learning more can use the Contact Us section on the company's website.

Jay's Plumbing, Heating & AC Repair is based in Mount Airy, North Carolina, and serves homeowners and businesses throughout the region. The company holds multiple professional licenses, including NC H3 Class 1, H2 Class 1, NC SPPH Electrical License, and VA Class A HVAC and Plumbing Licenses, and carries an A+ rating from the Better Business Bureau.
