

Stinson Insurance Consulting & Education LLC Announces Insurance Consultant Now Available For Expert Testimony

May 19, 2015

May 19, 2015 - PRESSADVANTAGE -

Stinson Insurance Consulting & Education LLC, a company that is based in West Palm Beach, FL, has announced that their insurance consultant, Steven A. Stinson, will be available to provide expert witness testimony in insurance cases. Mr. Stinson is qualified to deliver expert witness advice in a variety of different legal cases, both for the defendant and the prosecution. It is hoped that these services will help more legal cases to be resolved in a fair and just manner.

"I am a uniquely qualified expert witness," says Steven A. Stinson. "My education, background and experience make me particularly suitable to provide pertinent advice and testimony. Additionally, I am a prolific author regarding insurance matters and my articles have been published in numerous legal journals across the country. Finally, Stinson Insurance Consulting & Education LLC is frequently asked to speak on insurance matters at conventions and in legal matters relating to the world of insurance."

The areas of expertise for Mr. Steven A. Stinson are vast and include such topics as coverage denial, bad faith, policy interpretation, disability policies, additional insureds, coverage issues and more. Additionally,

besides offering his services as an insurance expert witness, he also works in arbitration, insurance mediation and as an umpire in first party appraisals. He also provides consultancy services for each of these particular areas. His goal is to ensure that the system of insurance will continue to be fair and just for all of the parties involved and he has dedicated his life to focusing on this specific goal.

Mr. Stinson is highly respected by his peers and others in the legal world. Additionally, his clients always speak very highly of him. This is also reflected in the numerous reviews that have been left regarding him.

"Steve Stinson has been a reliable referral for me!," says Jennifer Hellman-Foland. "I needed an expert witness that I could refer some of my attorney clients to and they have all expressed that he was a great help to their case. Would refer him to anyone who needs his expertise!"

As it is becoming increasingly common to hire an expert witness in insurance cases, Mr. Stinson expects that his caseload will soon increase dramatically. However, in the meantime, he will continue to offer a free consultation to potential clients who feel that his expertise could be beneficial to them and the outcome of their case. As an expert insurance consultant, he is committed to being fair in the advice that he will provide. He is also keen to provide more information about how to make sure his expert advice is used properly, which involves understanding the legal challenges, interviewing witnesses and preparing witnesses. His role, in a legal case, will be to provide an insight that is different from that of any other witness, not in the least because it is free from emotions.
