Makeup Brushes By Missame LLC Receive Moyra Mulholland Endorsement

June 17, 2015

June 17, 2015 -
Missame LLC, a health and beauty business in Sacramento, CA, are very proud to have received an endorsement on their makeup brushes from Moyra Mulholland, a professional New York based makeup artist. Mulholland is vegan and she wrote a personal email to Missame LLC to congratulate them on making a vegan-friendly product. Missame LLC hopes that the endorsement will attract more customers to their range, as well as giving them the encouragement to stay focused on environmentally friendly products.

"We are very humbled by her unsolicited endorsement", says Amy Ng from Missame LLC. "Her review confirms that we are doing the right thing and encourages us to keep our current and future products animal friendly."

The professional makeup brushes are currently available on Amazon at a special discounted price of $39.97, which is a discount of 60%. This is to celebrate the fact that they have been recognized by such a prominent figure in the world of makeup, and to give more people the opportunity to try the brushes for themselves. The set includes ten different brushes, each of which is has bamboo handles and fully synthetic hairs. All of the brushes are handmade and completely cruelty free, and therefore also vegan. This is highlighted in the

review provided by Mulholland.

"I LOVE these brushes!", says Moyra Mulholland. "I am a professional make up artist (I'm not paid for this review and don't have anything to do with the company) I think the set is well thought out, the shapes and sizes are all very practical and easy to clean. Also less apt to harbor yucky things in the bristles."

Indeed, the brushes are designed to be easy to clean and are therefore also very hygienic. The ten brushes are presented in a beautiful dark brown makeup case, closed with a satin ribbon. This further enhances the hygienic properties of the brushes, as it keeps them clean and away from the element. Furthermore, they come with a 100% lifetime guarantee on their quality and construction.

The kit includes the Kabuki brush, which is perfect for the application of mineral foundation. It also comes with various eye shadow brushes, as well as a range of brushes in different shapes, angles and sizes. The synthetic taklon hair on each of the brushes is very soft and dense. It is able to cope with powders, creams, gels, minerals and liquid with great ease. Furthermore, an easy brush guide is included with each purchase. It is a truly professional set that now comes highly recommended by people who are experts in the makeup business. And since it is completely cruelty free, anyone is able to use these.
