

Rehab Center Offers Intensive Outpatient Program In Fort Lauderdale

October 11, 2016

October 11, 2016 - PRESSADVANTAGE -

Galt Ocean Rehab Center, based in Lauderdale by the Sea, FL, are proud to announce that they now offer an Intensive Outpatient Program (IOP). This program is offered to those who have completed a period of detox and inpatient treatment program, but are not ready yet to face the world on their own. This program is playing an important role in ensuring that people can achieve lifelong sobriety. Full details are available through <http://galtocceanrehabcenter.com/iop/>.

Maggie Bickers from Galt Ocean Rehab Center says: "We understand what people who have undergone rehab are going through and offer our IOP program to give them the foundation they require for a life free of drug or alcohol abuse. We tailor this program to the individual needs of each client, thereby increasing the chances of success."

Unfortunately, the vast majority of people who go through rehab relapse at least once. To combat this, rehab centers like Galt Ocean Rehab are doing all they can to adjust the programs that they offer to ensure there is a greater chance of lasting success. This is why, as shown on <http://galtocceanrehabcenter.com/true-ocean-side-recovery/>, they offer unique treatment options. "We take a

unique approach in the treatment solutions at our oceanfront drug recovery center," adds Bickers. "We want to improve the patients' quality of life by giving them a skill set that will allow them to maintain sobriety. We utilize our oceanfront space to create unique therapy and activity experiences."

While IOP is, at its heart, an outpatient treatment option, Galt Ocean Rehab also enables people to stay in the facility if they require a more intensive environment. They offer daily treatment options in comfortable and relaxing environments, including beach activities and rooms with ocean views. Images of the rooms and the facility as a whole are available through <http://galtoceanrehabcenter.com/facility-photos/>.

The IOP is proving to be incredibly popular and it is making a real difference in the lives on individuals. Addictions affect all levels of society, including families, communities, the health system, the legal system, and more. Hence, by improving the lives of individuals with a substance abuse problem, Galt Ocean Rehab is effectively improving the entire community.
