

Yazdani Dental Shares Smiles with their Care to Share program

September 14, 2016

September 14, 2016 - PRESSADVANTAGE -

Dr. Milan Yazdani and staff at Yazdani Dental would like to announce that they are running a Care to Share program to draw in new clients and show appreciation to existing clients. The Care to Share program is a referral program they are now doing in order to attract more customers through their existing customer base. This referral program offers both the person referring and the person referred a fifty dollar gift card or credit at the dental office. The gift card can come in three different forms, Upper Canada Mall Card, Cineplex Movie Card, or Restaurant Card. The other option is a fifty dollar credit on an account at the dental office, working towards payments.

By rewarding both parties, Yazdani Dental is not only trying to draw in new clients, but also appreciate and thank their existing clients. Beyond looking to expand their customer base, the Care to Share program is supposed to thank existing clients for their loyalty and committed service. By doing this, Yazdani Dental shows appreciation to current customers in the Aurora area, while asking them to extend their services to those that trust and value Yazdani the most, the current clients.

Current clients are invited to pick up a Care to Share voucher at the Yazdani Dental office or print it out from

the website. They encourage as many referrals as possible, so clients are able to refer more than one person. Clients are just asked to write their name on the Care to Share voucher and then hand them out to friends and family. This Care to Share program is in effect for a limited time and Yazdani Dental is encouraging clients and prospective clients to take advantage of this deal.
