

Newton Fire And Flood Firm Offers Insurance Pre-Approved Services

October 24, 2016

October 24, 2016 - PRESSADVANTAGE -

Newton Fire & Flood offers 24/7 emergency services which are pre-approved by most insurance firms. This allows the clean-up and restoration services to begin quickly, preventing further damage.

Newton MA: Newton Fire & Flood and Phil Straghalis are pleased to announce that their emergency services have a pre-approved status with many of the insurance firms in the area. This trust level means that homeowners and business owners are able to arrange for a prompt response to fire, flood or other emergencies. The Newton water damage restoration professionals bring the necessary equipment and skills to the site of the damage quickly. Emergencies don't operate on a business hour timetable and neither does Newton Fire & Flood, the company says.

According to Phil Straghalis, "We offer fire, ice and water damage cleanup. In addition, we have the products and techniques to safely and efficiently remove mold growth. We are recognized as the top fire and water damage restoration provider in Boston Massachusetts, serving residential, institutional, and commercial clients throughout New England. When you experience an emergency, we respond and take care of everything so you don't have to."

The professional team is available around the clock for water and fire damage clean-up and repair, as well as for ice dam removal. The issue of mold can be resolved effectively. In addition, the company takes care of fire and flood restoration, water mitigation, air duct cleaning, septic tank pumping, waste and sewage removal, and reconstruction services.

The development of mold can happen quickly in instances where there is flooding or other water damage. It is important to take prompt action to forestall major mold growth. The mitigation service helps to prevent health problems to household members and pets.

Insurance claims are not a problem since the billing experts work directly with the insurance firms. The service is completed in record time so that clients can return to normal as quickly as possible. Irrespective of

the type of emergency, the trained technicians are available to assess the damage and begin the state-of-the-art mitigation service.
