

Banish Pest Control Celebrates Four Years In Service

October 24, 2016

October 24, 2016 - PRESSADVANTAGE -

Banish Pest Control offers elimination of the numerous types of pests that plague households and businesses in Beaverton and the surrounding area. The safe and effective methods and products eradicate flying, scampering and creeping pests.

Beaverton OR: Banish Pest Control and Michael Funrue are pleased to announce that they have reached the four-year milestone of service getting rid of pests in the Beaverton area. The Portland pest control firm has been responsible for eliminating ants, bees, spiders, termites, bats, rats and many other pests and rodents. When selecting a firm to take care of unwanted pests, it pays to choose one with a record of experience and service which can get the job done safely and affordably.

According to the owner, Michael Funrue, "We try to make things easier for our customers. Often, we are able to provide cost-of-service estimates over the phone. A strong professional ethics base has been part of each member of the team. We provide a fast response, easy appointment scheduling, affordable prices and elimination of the unwanted intruders in your home or business. Unlike some of the other pest control services in Oregon, we don't use quick-fix chemical sprays and a disappearing act. We get the job done to your satisfaction."

"We have learned proper methods of treatment over the years of training and experience," he continues. "Our equipment is top-of-the-line so that the professionals on our team can perform their tasks precisely and efficiently."

The full list of services is exhaustive, but the professional team has experience in dealing with those unwanted creatures which are most likely to be found in the service area. In addition to Portland and Beaverton, the professional team will visit homes and businesses in a thirty-mile radius, which includes Cedar Hills, Cedar Mill, Oregon City, Canby, Gladstone, Cornelius and others.

Rather than to utilize home remedies and over-the-counter solutions, which tend to be temporary, the team of professionals will determine where the root of the infestation problem is and provide long-term solutions. The

company guarantees that they will eliminate the unwanted pests using safe and affordable solutions.
