

Discounted Water Heater Replacement Available In Lakeland, Florida In November

October 27, 2016

October 27, 2016 - PRESSADVANTAGE -

With the winter months fast approaching, people have started to ask for services on their water heaters. For some, however, this means being told that their heater will require replacement. David Weeks Plumbing, a plumbing business in Lakeland, FL, has announced that during the month of November, they will be offering customers a \$100 discount on water heater replacement. In so doing, the Lakeland plumber aims to make sure everybody will be able to have a comfortable winter.

David Weeks, owner and founder of David Weeks Plumbing, says: "Every year, you hear of families having to choose between heating water and eating. Or of elderly people choosing to avoid baths because their water heater is worn out. For some, this is due to the fact that they don't have the funds to actually replace their faulty water heater. We hope to be able to make a real difference this year by offering people a \$100 discount."

Thanks to the discount, those with a broken hot water heater will be more likely to be able to replace them. At the same time, those who want to replace their water heater for the purpose of becoming greener and reducing their energy bills will also have an opportunity to do so. Hence, David Weeks Plumbing also aims to

help the environment as a whole.

This dedication to their customers, the community, and the world as a whole is something that shines through in the company's work, which has been positively reviewed. "They are the people we know we can depend for honest, excellent and fast service," says one client on the company's website in one of the many customer reviews. "Our family has been using them thru 3 generations now and we have been very pleased. We highly recommend them."

To access the \$100 discount on installation during the month of November, interested customers can navigate to the plumber's website at <http://www.davidweeksplumbing.com> to make an appointment for installation. People are encouraged to book their appointment as soon as possible so that spaces do not run out, as David Weeks Plumbing is a two-person team.
