

Smile Gallery Released by Award Winning Cosmetic Dentist Dr. Charles Nottingham

November 01, 2016

November 01, 2016 - PRESSADVANTAGE -

The South Florida Cosmetic Dentistry professionals offer the largest smile gallery on the Web, The doctor is personally responsible for the results on each of the patients appearing in the Gallery.

Tamarac FL: Dr. Charles Nottingham is pleased to announce he has released the latest images from his smile gallery. The practice has been featured on ABC's Extreme Makeover Lab as Florida's Extreme Makeover Cosmetic Dentistry Practice. The doctor is personally responsible for the results and has a thirty-plus year record of high-quality dentistry and top-tier service to patients. The gallery features dozens of before and after pictures of patients who have completed the course of treatment.

The gallery can be found at the website at <http://southfloridacosmeticdentistry.com/smile-gallery/>. The men and women who have shown their results on the website had a variety of dental and oral health problems which were overcome through the efforts of Dr. Nottingham. Some of the issues which are defined for the dental patients include extreme wear on the teeth, poor shape, and color, chipped and discolored, a narrow arch, and a cross bite on one or both sides.

For each of the patients, the doctor describes the various issues which were involved. He then describes the treatment which was used for each of the problems. Finally, a statement from the patient describing their satisfaction with the results is included in some instances.

The results can be life-changing, Dr. Nottingham says. For example, a patient who needed cosmetic work in order to pursue her chosen career in modeling was helped to have a beautiful smile. Other patients include those who are public figures in sports or entertainment and need corrections for improvement in their on-camera appearances.

Other patients simply want to improve their appearance to boost self-confidence. Whether the work to be done is relatively minor or is a major makeover, the doctor says he has the skills and extensive experience to manage it.
