# Provider of Pensacola, FL Sunrooms Warns Against Tick and Mosquito Bites this Summer

*July 05, 2018*

July 05, 2018 -

Pensacola, Fla. - According to the Center for Disease Control and Prevention, tick and mosquito bites have more than tripled in the United States in recent years, with 2018 projected to have the most yet. Local provider of Pensacola, FL sunrooms, Titan Sunrooms, aims to advise those in the Florida panhandle area to take extra precautions this summer. Luckily, the construction of a sunroom, a specialty of Titan Sunrooms, could help protect against these possible dangers.

While using the most innovative materials available, Titan Sunrooms offers their Pensacola, FL screen rooms as a perfect relief from the insects and bugs this summer. The additions are a safe alternative for families to be able to still enjoy the summer weather and outdoor "feel" without having the dangers of coming into contact with infectious insects.

The Center for Disease Control and Prevention advises that, "Between 2004 and 2016, about 643,000 cases of 16 insect-borne illnesses were reported to the C.D.C. ? 27,000 a year in 2004, rising to 96,000 by 2016. This is an astonishing increase and the biggest increase that has been recorded in recent years."

As the summer continues and most move to enjoy the warm weather outside, the insects are in full force. With new innovative materials, designs, and customizable detentions and details, Titan Sunrooms is offering a solution to the possible dangers of spending time outdoors unprotected. Adding a sunroom, screen room, or Florida room to the home can be a durable, energy-efficient, and environmentally friendly way to enjoy the outdoors safely sheltered from dangerous insect bites.
