

BuyRealSocialMarketing Launches Targeted Instagram Follower Service

November 17, 2016

November 17, 2016 - PRESSADVANTAGE -

BRSM offers purchase packages to acquire targeted Instagram Followers. The target audience can include cities, countries, keyword phrases or others.

Knoxville TN: BuyRealSocialMarketing and owner Dennis Robinson are pleased to announce the launch of their premium follower service for Instagram accounts. Customers can buy targeted Instagram Followers conveniently and affordably. Package sizes range from 500 Followers to 50,000 targeted Followers. The premium targeted service delivers Followers who are interested in the particular brand, service or product guaranteed. All work is provided by staff members and is 100 percent safe and secure.

Unlike some of the other BRSM services, the targeted Followers packages require a username and password. After selecting the package size, customers will provide the company with keyword phrases, competitor Instagram pages or locations which should be targeted.

There are four types of targeting for Instagram. These include Instagram Keyword Targeting; Instagram Profile BIO Targeting; and Instagram Competition Targeting. The fourth type is Instagram Geo Targeting, which can include targeted followers from the UK, Mexico, Canada, Australia, or any county or city which is an appropriate target for the customer's business. Instagram Competition Targeting is the most popular.

Instagram Competition Targeting goes after Instagram pages that already have followers in the market niche that are desirable for the customer. Followers of competitors are the ones who are targeted, using this approach.

BRSM uses a method called "Follow First". The first step is to scan the platform, finding accounts which match the desired target. The company then starts following users with the objective of following back. After 24 hours, if there is no follow back, they will be unfollowed. This approach keeps the followers/follow ratio down. Follows should be lower than followers. The professionals at BRSM track the account daily and manually add targeted Instagram followers until the numbers reach the desired level. The labor-intensive

approach means that results are made up of real people, not bots and not fakes. The response from previous customers is overwhelmingly positive.
