Coconut Oil for Hair Serum by Perfect Hair Available for Sale on Amazon

November 13, 2018

November 13, 2018 - PRESSADVANTAGE -

Perfect Hair, a provider of restorative hair care products, has recently announced a new addition to their product line, which is the Perfect Hair Focus Coconut Oil Hair Serum. According to the company, this coconut oil for hair serum takes the proven benefits of coconut oil and infuses its fatty acids with raw virgin olive oil, sweet almond, keratin, and algae extract, to create a serum that works to rejuvenate, strengthen, and restore dry and/or damaged hair to its natural beauty and shine.

It has been shown that the fatty acids in coconut oil have restorative properties for hair. They work to stimulate hair growth by going deep inside the hair follicles. When combined with other oils, such as raw virgin olive oil and sweet almond oil, these properties have been observed to be multiplied. Perfect Hair Focus Coconut Oil Hair Serum takes those oils and adds keratin and algae extract to provide additional strength to the individual strands of hair. Keratin is a fibrous protein already present in the hair. In that regard, this product is also considered to be a keratin hair serum that boosts the hair's strength by the addition of keratin, which helps reduce breakage and split ends.

It has also been noted that coconut oil can promote better scalp health in individuals. It has been shown to make a substantial difference when used against such conditions as dandruff, lice, and insect bites.

According to Perfect Hair, its Focus Coconut Oil Hair Serum naturally invigorates the hair, stimulating thicker and fuller growth. It protects hair from the harsh effects of the weather and wind to keep hair looking silky smooth all day. Since it works on each individual strand of hair, this serum is a simple and easy way to combat frizzy hairs and flyaways, while also correcting split ends. It works to prevent damage from the high heat of curling irons and hair straightening flat irons as well. It helps keep hair manageable and works for men and women with all types of hair to rejuvenate straight, curly, coarse, wavy, coiled and/or tightly coiled hair.

"Look, I'll admit it: My hair is frizzy. Like, every day frizzy. We're talking fuzz in the biggest way. This coconut oil serum calms it down like no one's business," says a verified purchaser on Amazon. "I love how lightweight

it is, and that just one pump gives me enough product to tame even my craziest flyaways. An extra benefit is that it makes my hair smell amazing."

Focus Coconut Oil Hair Serum also includes several invigorating hair vitamins. It is a blend of antioxidants from fractionated coconut oil, aloe vera juice, raw virgin olive oil, sweet almond oil, vitamin E oil and keratin. Using a cold pressed extraction process, avoiding heat and hexane, this serum is designed to maximize nutrient absorption.

According to Perfect Hair, just one pump of the hair serum in the palm of the hand is all that is necessary. It is intended to be applied to damp, clean hair and this moisturizes the hair in minutes.

Sulfates and parabens can irritate the scalp and skin. Focus Coconut Oil Hair Serum has been specially developed to be free of harsh chemicals and most known allergens.

For maximum rejuvenation of dry and damage hair, Perfect Hair recommends using the Focus Coconut Oil Hair Serum with their hair fibers for thinning hair, known as the Focus Shampoo and Conditioner. Perfect Hair developed this cruelty-free, shampoo and conditioner to help those suffering from thinning hair or alopecia hair loss, but also works for those who wish a fuller, longer, and thicker head of hair. This shampoo is packed with vital oils, minerals, nutrients and amino acids that have been shown to restore hair and promote growth. When paired with the Coconut Oil Hair Serum, the user gets a deep and intensive moisturizing treatment.

The paraben and sulfate-free shampoo uses a proprietary formula that uses a blend of antioxidants from Argan oil, fractionated coconut oil, Jojoba oil, hemp seed oil, algae extract, keratin, biotin, Vitamin A, Vitamin C, and Ginseng root extract. This blend of hair vitamins works at the hair's cellular level to encourage healthy growth while also reviving dry and damaged hair.

"At Perfect Hair, we believe that nature holds the solution to the problem of weak, damaged, or thinning hair. All of our hair care products are made with the finest natural ingredients renowned for their nourishing and thickening properties for top-notch, quality products," says a representative from Perfect Hair.

Focus Coconut Oil Hair Serum comes in a convenient 50ml/1.69 ounce pump bottle. Perfect Hair is so sure users will see remarkable results from this product that they offer a 100% guarantee that if not completely satisfied purchasers will receive their money back.
