

Growpetz Releases New Ergonomic Pet Grooming Tools That Reduce Shedding Time To Minutes

July 14, 2015

July 14, 2015 -
Growpetz, a manufacturer of high quality pet products, has launched a new pet grooming tool that they claim will reduce shedding time to mere minutes. This tool, available at http://www.amazon.com/dp/B00KPRWNYE, comes with three interchangeable blades in place of the industry-standard single blade. Growpetz hopes that their design improvements will help cut down on pet shedding worldwide.

Keith Kruger from Growpetz explains, "It is a fact of life that most dog breeds shed and this can cause untold issues in a household, not just in terms of allergies but also in terms of the sheer mess it makes. Our new tool helps to reduce shedding time to just minutes. This is also beneficial to the overall health of a dog, or even a cat, as it helps to stimulate the natural oils in their coats."

The product comes with a stainless steel four inch blade. Unlike other products, the Growpetz grooming tool comes with two additional interchangeable blades, which opens it up for use with pets of any size. The smallest blade is intended for use on sensitive areas of dog fur, in addition to being useful with cats. The tool set is already receiving an overwhelmingly positive response on Amazon, with an average 5-star rating after more than 172 reviews to date.

The grooming tools have an ergonomic design, making it easier on pet owners to use and hold. Growpetz claims that it takes just a few minutes to make a dog or cat's coat look shiny and healthy with their instruments.

Indeed, many of their reviews show the customer's appreciation toward these features. One review notes, "This has been a life saver! I have dogs and I have hair everywhere in my house! It is like no matter what I do I end up covered! Since I have received this I have seen SUCH a difference! WOW!"

Many reviewers also note that their pets seem to truly enjoy the process of being groomed with this set of tools.
