Need Money Now Offers Same Day Cash Advances Through New Website

December 26, 2018

December 26, 2018 -
NeedMoneyNow, an online financial assistance company in New Zealand, is proud to offer aid to help their customers deal with unexpected costs and financial surprises. The company specializes in same day cash advances through their new website. Their headquarters, located at 18 Leslie Hills Dr in Riccarton, Christchurch 8011, is very happy to provide these solutions to their customers.

The company makes it easy for those in need to apply for short-term cash and payday assistance. They are available at their office during usual NZ business hours or via their online application form which operates 24/7. The company says, ?It is difficult it to plan for small emergencies. Whether it?s urgent car repairs, emergency dental work, or wanting to take advantage of an early payment discount, we can help.? Their assistance can be from $100 to $1,000. Customers can always get more details by calling 03 595 5202.

The company's 3-step application process is designed to make the task of borrowing money as easy as possible. First, using their online calculator, customers select the amount they?d like to borrow and the terms, and then click ?apply?. The application will ask to verify the customer's phone number and they?ll need to provide their bank?s login details. The second step is for the team to notify the customer about their approval

by SMS. Then they transfer the money directly to the customer's bank within an hour of being approved. The third step is for the customer to make repayment with direct debits from their account according to the agreed-upon repayment schedule.

The financial assistance is not a short-term fix for a long-term problem, so the team encourages those who are already carrying debt to seek alternatives. The company's Facebook page, at https://www.facebook.com/needmoneynownz/, talks about how they are transparent about their fees. The amount a customer can borrow will be determined by their individual circumstances. The client needs to meet certain criteria which include earning over $400 per week net from ongoing employment and being over the age of 18. To find out all the costs of financial aid there is an easy to use online calculator which will calculate how much the customer can borrow and exactly how much they will have to pay back. All it requires a mobile device or a computer with internet access.

Customers can improve their financial situation by using the company's services because, unlike many other online lenders, they care about the client's financial situation since they strive to give assistance without putting the borrower under more financial strain. They do this by structuring the repayments so a customer will not have to pay more than 25% of their net pay each repayment period. The team doesn't recommend taking out a loan unless a customer really needs to as the interest rates are high. They say to take out a loan for necessary payment like bills, and not for entertaining or booking trips.

The company is excited about their newly relaunched website where customers can easily and securely save their loan documents online and access them at any time. The online system is quick and secure as the information is protected by one of the most robust security systems around. Since everything is processed online the client doesn't even have to fax or post anything. They can do everything on their computer or mobile device whether they?re at home, at work, or even on public transport. All they need is a WiFi connection to sign the agreement and there is no printing or paperwork. Whether a customer has done this before or it?s their first time, they can complete the process quickly and easily.

Customers can learn more about the company's online financial assistance by viewing the website at needmoneynow.co.nz. They may also reach them by visiting their New Zealand headquarters, which can be found on their Google Maps page at https://goo.gl/maps/mBqVoXo9Lz62, or by calling 03 595 5202.
