LiveEco Releases New Emoji Gift Bags Onto Amazon Marketplace

January 04, 2019

January 04, 2019 - PRESSADVANTAGE -
LiveEco has announced that they have just released their new emoji gift bags onto the Amazon marketplace. The bags come in four different styles of emojis and their large size of 9 by 12 inches allows them to be used for any number of purposes.

Christina Abels, a spokesperson for the company says, ?We are so excited to have these bags available. The four available styles gives something for everyone. These are very high-quality bags. They are ideal for party favor bags to hold candy, party favors, toys, prizes or anything else to make those parties extra-special.?

The company states that the bags are economically friendly, as well. LiveEco works in collaboration with CarbonFun to provide carbon-neutral shipping for the emoji bags. Abels states that the bags are made with 10 to 20 percent recycled materials to give them a lower carbon footprint and make them more appealable to parents who are trying to teach their children about going green.

?It?s always a good idea to look for green products,? says Abels. ?We wanted parents to have the

opportunity to lower their own carbon footprint and what better way to do that than with these fun party bags.?

The favor bags for kids can be purchased on the Amazon marketplace. Abels states that they designed them to be fun and exciting with bright colors and four styles of emojis. Each 40 bag order includes yellow gift bags in four different styles. Customers receive 10 bags with smiling faces with heart eyes, 10 bags with laughing out loud faces with tears of joy, 10 bags with blowing kiss faces and 10 bags that have crazy faces. Abels says that they designed the different faces to make the bags more fun for kids.

The company offers a no-rip guarantee for the bags, which is not commonly seen in party favor bags. The company has been listed as Amazon Choice and has one of the largest numbers of positive reviews on the marketplace for their products. Abels states that they designed the bags to be practical and sturdy but to provide fun for kids of all ages. She states that by ensuring that they never rip or tear, they are giving parents the opportunity to reuse the bags as they see fit, and states that their larger than average size allows for a long list of ways that parents can use them.

Reviews for the party bags can be seen on the company?s Amazon marketplace page. Customers are praising the bags for their durability as well as their fun design. Parents have stated that they are purchasing the bags for use at kids? school parties, for holidays or birthdays, and that they have used them at home for other parties, as well. Abels states that emojis have become one of the most treasured designs in the world, particularly for children and pre-teens and that the bags are perfect for giving gifts to children or even adults. They are widely used on Facebook and in texting and the design is available in a number of products. She states that they specifically designed them to be eco-friendly and to give parents something that is more durable than a traditional gift and party favor bag.

Those who are interested in learning more about the emoji bags or in seeing the designs of the new party favor bags can do so by visiting the company on their official Amazon seller?s page. Abels states that they make the perfect themed party bag or they can be ordered for use for any number of other purposes. Those interested in learning more about the durability of the bags can visit the site on Amazon and read through the various customer reviews that have been left for the company. Abels states that the company?s other products can be seen on Amazon as well. Interested consumers simply visit their official seller?s page to learn more about these and other products that have been released by LiveEco.
