

New Town Glass Windows & Doors Launches the Perfected Insulated Framing Mix for Okanagan Weather

January 11, 2019

January 11, 2019 -
New Town Glass is launching Perfected Insulated Framing, a new product targeting the growing demand for a unique insulation mix that actually exceeds energy star ratings. Designed to keep a home cool during hot summers and warm during cold winters, this new formula was designed specifically for the Okanagan area including Kelowna, BC.

The Perfect Insulated Framing helps stabilize a home's temperature while reducing wear on furnaces and air conditioners. The unique installation framing techniques, over-deliver on energy savings, while still improving the design enhancement of the home.

Based in Kelowna, BC, New Town Glass is committed to helping the ever-growing community of homeowners in the Okanagan market, including residents in Kelowna, West Kelowna, and the West Bank, to both save on energy bills while increasing value in Kelowna homes.

Harison Pykko, Owner Operator of New Town Glass Windows & Doors says: "It's a unique insulated framing technique and is really the only home improvement that can enhance safety and security of a home

while making the living space more comfortable and energy efficient."

With Perfect Insulated Framing, both the home owner's budget, overall look and improvement of the home both inside and out is taken into account, as well as energy bill savings.

The value of the fast-paced and target market for the new product or service is estimated to be over 10 million.

New Town Glass Windows & Doors was launched in response to demand for customers wanting to save on home energy bills and plans to innovate ways to help homeowners save more over the next 12 months.
