ENMAR Hardwood Flooring Announces That It Has A New 5 Star Google Review

January 22, 2019

January 22, 2019 -

ENMAR Hardwood Flooring, a flooring installer based in Gilbert, AZ, has announced that they have recently received a new five star Google review. They want to point out that although they have already received several five-star reviews on their Google Maps page and Facebook page, it still excites them to discover that they have just received another one. This is because it is an indication that they are on the right track in their efforts to provide the best possible products and service to their customers.

In the said review, James W says, ?ENMAR Hardwood Flooring is amazing! I had to share this as in the past with another flooring company I had a horrible experience. My experience with Brian and his fantastic team was the complete opposite and I must say that I love my new floors! Brian is very knowledgable and his entire team is so professional. I can save you some time in searching around, just call Brian! Thanks again, guys!?

ENMAR Hardwood Flooring spokesperson Brian Flynn says, ?ENMAR Hardwood Flooring transcends nearly all other wood flooring companies on the market today. ENMAR has in-house hardwood floor installers that allow us to ensure the utmost in quality wood floor installation. Our customers work with us to select their products and ENMAR?s expert installation crew completes their installation to their satisfaction. We have

been in business for over 30 years and we only hire the very best to ensure our reputation for quality remains intact. We completely understand the work is just beginning after the purchase of wood floors.?

Aside from hardwood floor installation services, the company also provides reclaimed flooring services, unfinished flooring services, engineered hardwood flooring, refinishing and repair of hardwood flooring, commercial wood flooring, and flooring for gyms and sports venues. While these services may also be provided by other companies, what distinguishes ENMAR is their customer service. They have a professional team that makes sure the work area is clean after they have finished the job, which means that the homeowner or property owner would not have the inconvenience of cleaning up after the crew has left.

The quality of their installations is attested to the reviews they have received. In another five star Google review, Heather H said, ?I called Enmar Flooring based on their reviews. I also contacted another flooring company at the same time from a friend?s recommendation and by the time the other flooring company had called me back Brian at Enmar had not only responded to my initial call, but had been to my house to measure and had given me an estimate. He was incredibly responsive and has an obvious high level of expertise that I don?t think I could find elsewhere. During installation, his team was efficient, knowledgeable and a pleasure to work with. I was incredibly impressed. I am so happy with my wood floors. They look stunning. I would recommend Brian?s company a hundred times over.?

An interesting service that they also provide is reclaimed flooring. In fact, ENMAR had won the ?Best Reclaimed Floor? award in 2007. Since these are reclaimed wooden floors, they have been naturally aged and this beats the feel provided by newer wood. These are able to provide that rustic, weathered look that is almost impossible to duplicate in other kinds of hardwood flooring. Reclaimed wooden floors are available in Hickory, Oak, Jarrah, Chestnut, Heart Pine, Ash, Maple, Birch, Beech, and Trestlewood.

And for homeowners and property owners who like customization and flexibility, there is the unfinished hardwood flooring. These are hand-crafted and finished on-site. Customers have a wide range of options with regards to stains and finishes, which means they can really make sure that the floors will match the walls, ceiling, and furniture.

ENMAR Hardwood Flooring is a nationally renowned family-owned and operated business that was established in 1975. They serve various cities in Arizona including Scottsdale, Phoenix, Cave Creek, Queen Creek, Mesa, Gilbert, Glendale, San Tan Valley, Flagstaff, Peoria, Sedona, Anthem, and Tucson.

Those who would like to consult with the professional flooring experts at ENMAR Hardwood Flooring can visit their website where they can contact them through online chat or they can call them through the telephone.
