

Landscape Curbing Services Now Offered by Legends Landscaping Boise

July 11, 2015

July 11, 2015 -

Nampa, Idaho landscaping business Legends Landscaping Boise has started offering Boise landscape curbing services. They service both residential and commercial properties, providing custom landscaping as well as concrete curbing services. This is in addition to a wide variety of services they already offer, such as sod installation, sprinkler system installation, patio pavers, concrete curbing and more. Their goal is to keep Boise beautiful, one home at a time.

Shannon Barney, of Legends Landscaping Boise, said: "Our mission is to constantly exceed each customer's expectations while setting the industry standard for quality, craftsmanship and professionalism, and we strive to achieve that in every project we undertake."

Legends Landscaping Boise is also proud to be a certified member of the Idaho Contractors board (ICB), the Idaho State Department Of Agriculture-NurseryMan (ISDA), the Professional Applicator (IDSA), the Boise Metropolitan Chamber Of Commerce, and the BBB. Being certified by these institutions means they can truly act according to their mission statement in terms of delivering quality, craftsmanship and professionalism.

Boise landscape curbs are in demand, and are quite popular for a variety of reasons. They help to reduce yard work, add value and curb appeal to a property, create beautiful accents on a property and help to control stubborn areas of any garden. These types of borders are a beautiful long term solution, and the company uses extruded concrete so that they can follow any designs or curves within an existing landscape.

"We mix and form our concrete curbing on the job site," adds Shannon Barney. "This ensures that people are able to receive the custom look they are looking for. We reinforce the cement edging with fiber meshing, which greatly increases the durability of the curbing. This is important due to the freezing and thawing conditions we experience in Idaho. Additionally, we use the right levels of additive in our concrete curbing to further increase the lifespan of the product."

When it comes to custom curbing in Boise, residents know how important it is to have properly mixed concrete, since weather fluctuations can be so significant. Legends Landscaping Boise now offers a professional service that residents can trust. They also take pride in their excellent customer service. Boise residents are encouraged to contact them today while the weather is nice.
