Premier Property Buyers - Real Estate Consultant In Schertz TX Now Buying Houses

March 07, 2019

March 07, 2019 -

Premier Property Buyers, a company that directly buys houses from homeowners without the need for real estate agents, is announcing that they are now buying properties in Schertz, Texas. The company works directly with homeowners, buys houses regardless of condition and offers fair cash for the property - all of these without fees or commissions. Their official website can be visited at https://premierpropertybuyers.business.site.

When asked about their services, Inez Ali, a spokesperson for Premier Property Buyers said, ?When real estate agents list the properties in the housing market, they have to wait for someone to be interested in the house and eventually buy it. This tedious process can take up to several months or even years. Moreover, there is no actual guarantee that the agent can actually sell your house on your expected timeline. When a homeowner decides to work with Premier Property Buyers, there is no need to wait anymore as they will be already dealing with the actual buyer which is our company. We do not charge fees or commissions for the services we provide - we offer them for free. We will buy your house regardless of its condition and situation. When you call us, we can go to your house and then give you a fair cash offer for it. We will buy your house as-is without having to deal with any complexities.?

Anyone in the Schertz area and around the neighborhood who may need to sell their house fast can check their Google Maps page at https://goo.gl/maps/EuHSXBWJW2n to see where they conduct their services. Whatever the reason the house needs to be sold, such as facing foreclosure, divorce, being behind on mortgage payments, and so on can contact Premier Property Buyers anytime from Monday to Friday since their phone line is open 24 hours a day during weekdays. They are ready to buy your Schertz house and take the stress off your mind.

Inez Ali said, ?Selling your house can cause you a lot of stress especially when you are in the process of the traditional home-selling. We understand that situation so we came up with a solution that will make your home-selling experience even better than you expected. We will provide you with a fair cash offer which you are not under any obligation to accept. Our services do not come with commissions or hidden fees. You also do not need to worry about doing repairs on your house because we can buy it in its current condition. If you choose to sell your house to us, we can make your life easier by helping you avoid the hassle of the traditional home-selling with real estate agents. You can get the cash as soon as we close the sale which often happens in around 7 days.?

When asked about her experience, Brenda Mason, a client of Premier Property Buyers, said, ?When the real estate agent we hired was unable to attract potential buyers, we reached out to Premier Property Buyers to help us sell our house quickly. They gave me a fair cash offer for the house which I accepted immediately. They were able to close the sale the following week and I got the money right after signing the closing papers. Premier Property Buyers is a fantastic team of professional homebuyers who are real experts in what they do and I highly likely to recommend them to my relatives and friends who will plan on selling their house as well, just in case.?

Another client of the company, Lily Peters, said, ?The last time we sold a house, we hired a real estate agent and went through the traditional process which includes listing the house in the market, preparing your house for multiple showings and open houses, and having interested buyers suddenly become uninterested for some reasons. It was a very tiresome and horrible experience that my husband and I do not want to go through anymore. We learned about Premier Property Buyers from a friend who previously sold her house to them. The feedback to the company was very pleasing so we decided to give it a shot. We contacted them through their phone number and scheduled a meeting to see the house. They gave us a cash offer for the house which is a bit less than what we expected, but the thing is, they offer their services for free and do not charge commissions or any other fees like those with real estate agents. Those fees can take up to thousands of dollars so choosing to work with this company actually helps us save more money and have the entire profit to ourselves. They were able to close in just a few days which was very impressive. I highly recommend them to anyone who wants a stress-free and quick home-selling process. Working with Premier Property Buyers is such a great experience and I cannot thank them enough.?
