New To Australia Is The HP DesignJet T2600 3EK15A Buy Now From GOM

August 08, 2019

August 08, 2019 -

Global Office Machines, based in Sydney, Australia, has announced that they have recently become one of the first companies to gain access to the HP DesignJet T2600 36-inch Dual Roll PostScript Multifunction Printer (3EK15A), which is new to Australia. This is a wide format multifunction printer and it has various advantages, including boosting workgroup performance, rapid production of high quality prints, and improved productivity. More information about this printer can be gleaned from: https://gom.com.au/hp-designjet-t2600-36-inch-dual-roll-postscript-multifunction-printer-3ek15a/.

?Our newly released HP DesignJet T2600 36-inch Dual Roll PostScript Multifunction wide format printer is the leader of the DesignJet Technical range and there?s no question as to why,? says James, Product Manager at Global Office Machines.

He explains, ?With dual roll paper capacity, a 39cm interactive touch screen for print, scan and copy functions, fast print speeds and an output stacker capable of holding up to 100 prints at a time, it?s clear that the benefits the T2600 provide far exceed anything else on the market. Quickly produce professional-quality CAD and GIS drawings, print A1 size prints in 19 seconds and take advantage of the many features that

make this workgroup multifunction printer easy to manage, secure, control and operate.?

Being a six ink machine, the T2600 has sufficient colours to print technical drawings, maps, posters, and renders. Thus, it has become popular among various kinds of users such as builders, engineers, architects, and anyone who requires high quality plan printing with accurate line quality and crisp text.

Meanwhile, with the HP Click software, printing has been further simplified, which means that workgroups would be able to complete projects in less time. Users are able to quickly digitise projects with user-centric quicksets, automated scanning, and post-editing capabilities. HP has also provided a solution to combat potential security threats. The HP Secure Boot and HP JetAdvantage Security Manager has been designed to keep the network and fleet of printers safe at all times, with additional features such as secure user authentication.

The features of the HP DesignJet T2600 36-inch Dual Roll PostScript Multifunction Printer include: 36 inch width, PostScript functionality, Dual Roll capacity, 39cm interface that is attached to the printer, and original HP inks.

Global Office Machines sells not just multifunction printers but also large format printers, laserjet printers, photocopiers, plotters, HP A3 managed printers, and HP A4 managed printers. They also provide repair services for laser printers, multifunction printers, photocopiers, plotters, and other kinds of printers.

The company can also provide managed print services. For this, they will perform an assessment of the client?s current business situation in order to comprehend the current and future printing needs of the business, find out if there are any workflow challenges, and discuss the business? overall goals. After the assessment has been completed, the company will develop a strategy specific to the needs of the business that will help in overcoming the challenges that have been identified, ultimately resulting in a smoother workflow and achievement of the goals.

After the strategy has been approved by the client, the company will proceed with the implementation of the action plan, while making sure that all business operations are not interrupted during the process. And finally, Global Office Machines will provide ongoing quality and control services. They will use remote device management to make sure there is minimal downtime and they will keep the business updated with the latest technology.

Global Office Machines is a HP Certified Premier Partner. For two straight years, 2016 and 2017, they were the HP DesignJet Partner of the Year and in 2018 they were one of the top finalists. It was founded in 1996 to

fill the gap in the market for onsite printer repairs. It is a 100% Australian owned and operated company and has developed a reputation of being an industry leader and front runner in providing excellent customer service. They are a preferred national supplier for education, businesses, state and federal governments, small and medium-sized enterprises, and large enterprises.

Those who need more information about the T2600 printer and other products offered by Global Office Machines can visit their website at https://gom.com.au/, or contact by telephone or via email.
