

Dropshipping Innovation Opens One New Warehouse In New Castle, Delaware

May 29, 2015

May 29, 2015 - PRESSADVANTAGE -

Baltimore, Maryland - May, 29 2015 - Dropshipping Innovation, an online based Dropshipping company, has just opened its second warehouse in New Castle, Delaware to better serve the Eastern Coast of the United States. Previously, the company has been operating only one warehouse, situated in the West Coast at Sunnyvale.

With the second warehouse in operation, the company believes it will better serve its affiliated sellers; who need short term warehousing for receiving and dispatching goods. So buyers should expect faster delivery times, lower shipping costs and generally better customer satisfaction. Suppliers and sellers will also enjoy the same benefits as the convenience applies to them too.

The opening of the warehouse follows a lot of customer feedback, competitor analysis and a general desire to continuously improve services. And now that it is open, Dropshipping Innovation hopes to greatly increase its sellers. This is in line with its strategy to expand its clientele base three-fold by August this year. "This is great news," one seller from the East Coast had to say when she heard the news of the launch. "Now my goods can be delivered to my clients faster and that will greatly improve my ratings on Ebay and Amazon," she added.

Dropshipping is a retail method where sellers do not have to stock their services or goods on sale. Instead, they only have to link buyers to suppliers. Their role is to basically broker the sales and it is complete when the supplier takes ownership of the transaction.

Dropshipping Innovation, the company that owns and runs makemoneywithdropshipping.com, is an American Company co-owned by Rachel Ewine. It commenced its services sometime in 2011 and currently has about 866 affiliated sellers. The company is open to Ebay and Amazon account holders.
