

Trusted Tampa Homebuyers Buys Homes Quickly and Surely Directly from Owners in Tampa, Florida

March 26, 2019

March 26, 2019 -

Tampa, FL- Trusted Tampa Homebuyers has a solution for homeowners that can completely eliminate all the traditional hurdles of selling a house. The real estate investment company is buying houses directly from homeowners in Tampa. The company is willing to make a purchase offer in twenty four hours after viewing a house and they can close the sale in just seven business days. This is an unprecedented proposition from any real estate investor. Homeowners who want a quick sale and anyone who has been struggling to sell their residential property can now explore a surefire alternative to hiring realtors and indulging in long waits while dealing with uncertainty.

Trusted Tampa Homebuyers has recently announced that homeowners can have two assurances when they contact with their intent to sell a house. One, their property will be considered for purchase. Two, the company will have a cash offer within a day of the property inspection. The company does not have stringent criteria influencing their choices. The cash offer will be influenced by many factors, including but not limited to the type of property, its size and condition, the location and other merits or demerits. However, homeowners

will get a purchase offer. No residential property is turned down by the company, even if it is a very old house in a dire state or a hoarder house that is clearly unsafe.

Homeowners do not have to hire a real estate agent, there is no need to list the property for sale online, there are no advertising campaigns necessary and there is no seemingly perpetual wait time. As a result, homeowners can avoid paying the hefty six percent commission to their real estate agent. The closing cost that is around two percent is also not applicable. Homeowners do not have to repair anything. There is no staging required. The property inspection by the real estate consultant representing the company does not have any cost levied on the homeowner. There are no financial obligations for a homeowner.

There are only three things an owner of a residential property must do in the entire process. First, contact Trusted Tampa Homebuyers on (813) 358-2737 or through https://trustedtampahomebuyers.business.site to let them know about the property for sale. The second step is to schedule an appointment for the viewing. The third step is to consider the purchase offer. Homeowners are under no obligation to accept the cash offer. They also have the liberty to take as much time as necessary to consider the offer. The company will still honor its commitment to close the sale within seven days from the time a homeowner expresses their acceptance of the offer.

Trusted Tampa Homebuyers has already purchased many types of homes in Tampa and its surrounding areas. Its growing presence across Florida is a testimony to the fact that homeowners are finding the new solution extremely helpful. Many property owners are hard pressed to reduce the ask price or wait for months and in some cases longer than a year to find a homebuyer willing to purchase the house. All such problems are nonexistent when Trusted Tampa Homebuyers buys houses in Tampa.
