

Web Hosting Square Celebrates Two Decades In Business

January 04, 2017

January 04, 2017 - PRESSADVANTAGE -

BlueHost is one of the oldest web hosting companies, begun in 1996. It is the destination of choice for WordPress hosting.

Cleveland OH: Web Hosting Square and Brian Lee are pleased to announce that they have a separate web hosting plan for WordPress users. The plan is provided at significantly less money monthly than other plans. The BlueHost is one of the oldest hosting companies, having been launched in 1996. Customers are offered a free domain with the hosting purchase. Application of the BlueHost discount and free domain name is easy and convenient for customers. It is also possible to use existing domain from another service.

The BlueHost coupon available on the website and is accessed on the home page of the site. A domain name is registered and the appropriate web hosting plan selected. Customers can also wait to select the domain name. The existing domain name from another service such as Namecheap, BigRock or GoDaddy can be utilized if preferred. The domain name can be selected at a later point in the process.

According to a spokesperson for the company, "We offer an exclusive discount for WebhostingSquare.com. There are several web hosting packages available from BlueHost. These plans are accessed through the website. The price will vary on the different plans and their pricing. For the most savings, purchase hosting for a minimum of two to three years. The discount is available for the first-time purchase only, so buying for a longer period allows for the most savings."

"You can upgrade to VPS or a dedicated service at any time, if you require later," he continues. "One free domain is included in the benefits from the shared hosting package. The details of the packages are for a Starter Package, a Plus Package or a Business Pro Package. The most savings are available on a three year plan using any of the three levels of package. We are available to answer questions and provide solutions to hosting questions and concerns."
