SEO Services Now Offered in Calgary, Alberta

April 18, 2019

April 18, 2019 -
Calgary, Alberta based MRC SEO Consulting has begun taking on new clients, opening for the spring and summer season. They specialize in SEO services, otherwise known as Search Engine Optimization. This can be useful for websites, blogs, and businesses in order to help them rank on Google searches.

SEO is important for anyone looking to monetize their website or trying to make a sale, especially as the results only require a low cost investment. Unlike ads, this additionally creates organic traffic to the business page that does not halt when clients stop paying for consultation and help. It is proven to increase the traffic of all webpages at a steady rate and has a better return on investment than normal ads. For anyone looking to take their business to the next stage, SEO is the way to go.

By focusing on keywords and strategic placement, it can increase organic traffic in a, ?simple and streamlined process,? according to the company. Creating content and information that flows naturally around the keywords captivates the audience?s attention and helps them when locating the page in question for the first time. However, it is important to not ?over-stuff? keywords, to prevent Google from penalizing the webpages and taking them off of the rankings altogether. SEO can be difficult to grasp, which is what makes the MRC SEO Consulting firm a good choice for clients looking to test out what the technology can do for their business.

According to the company?s page on Vistek, their goals is, ?to ensure your business succeeds and grows using Search Engine Optimization to increase your online presence.? They accomplish this by first offering a free analysis to show the potential extra revenue that a client stands to gain. Then, they begin optimizing the content by working on link and authority building. If done correctly, it could land a business site on the first page of Google?s search engine results.

Being a local SEO professional, MRC SEO Consulting can ensure that they will be able to focus on the specific needs and demands of the client, offering individual attention that many other SEO services and websites are unable to provide. Now, business owners can simply fill in their content without worrying about having to optimize the webpages themselves.

Michael Crest, the owner of the company, received the Google Adwords Certification in 2015, demonstrating his extensive knowledge in the subject. He notes that the certification is an excellent addition to his company's successful portfolio, adding that, ?SEO is all about providing the best and topmost search rankings for their clients so that their businesses can make their online presence strong and get more clients.? He is passionate in this area, as seen by his successes in past years.

The more customers that visit a business? website, the more likely the business is to make sales through online marketing. Crest acknowledges this, and offers his services in a way where both parties can benefit. The keywords no longer have to sound forced and bulky since he is able to integrate them into the content seamlessly.

A recent study showed that 60% of webpage visits go to the first link that appears. That means that there will only be 40% left for the rest of the links, and the numbers get proportionally smaller as the website moves further into the second, third, or even fourth page of search results. With millions of websites online, SEO is one of the few things that would make a business stand out to potential customers.

MRC SEO Consulting currently enjoys an overwhelmingly positive response from their clients. Jennifer Watts states, ?If you need SEO services, Mike is the best in the business. Very honest, reasonable prices, and delivers results. When I hired Mike, we were doing well with SEO in some areas, and I wanted to make sure we maintained that.? Watts continued, ?When we hit a snag about a year later due to Google changes, Mike worked diligently to get us back where we needed to be. There are many people that will say they know what they're doing in this area but he is the person I would trust. Highly recommended.?

Those looking for Calgary SEO services may contact MRC SEO Consulting for a free consultation, or visit the company?s website to find out more. They are also active on various social media platforms
