

Go Industries Inc. Rolls Out Enhanced Dually Truck Mud Flaps, Prioritizing Vehicle Safety and Longevity

March 14, 2024

Richardson, TX - March 14, 2024 -
Go Industries Inc., a Richardson-based leader in the industry, is pleased to announce an expansion of their product line. This move involves the inclusion of an essential safety accessory ? improved mud flaps for trucks. With this product, specifically tailored to the needs of dual-rear-wheel (dually) trucks, Go Industries continues to uphold its commitment to enhancing the lifespan of vehicles that integrate their products.

Go Industries, founded by Mr. R.J. Orth in 1978, has seen significant growth over several decades. Their diverse and constantly evolving product range?featuring items like the Rancher Grille Guard, Big Tex Grille Guards, Pro Series - Winch Bumper Replacement, as well as rain guards, air flow tailgates, and steps?appeals to a variety of consumers, including truck owners and law enforcement agencies. Furthermore, Go Industries offers custom manufacturing services, guaranteeing tailored solutions to meet individual vehicle requirements.

Recognizing the shifting demands of consumers and the central role that mudflaps play in vehicular safety

and longevity, the company has chosen to include mudflaps for trucks in its product line. These essential accessories, designed primarily to protect from mud, debris, salt, and sand, are demanded by many states because of their important role in preserving not just the truck, but other vehicles on the road and their drivers as well.

Constructed from non-recycled rubber, Go Industries' mud flaps are available in two sizes: 19 inches by 24 inches for dual wheel trucks and 12 inches by 24 inches for single wheel trucks. Such a variety ensures that there are mud flaps suitable for each type of truck, accurately fitting each vehicle's specifications.

"Mud flaps for trucks are instrumental in ensuring sustainable vehicle maintenance and road safety," the CEO of Go Industries reveals. "Our team has devoted its time and resources to design and manufacture these mudflaps for trucks, focusing on both efficiency and durability so as to satisfy our customers' diverse needs."

Boasting a modern and precise manufacturing process, Go Industries utilizes a state-of-the-art facility equipped with computer-controlled equipment and robotic welding mechanisms. This innovative approach and unwavering dedication to quality have earned them Platinum Status with SEMA.

The CEO also emphasizes the company's commitment to adapting its product line according to market needs as it is paramount in the fast-moving aftermarket truck industry. "The inclusion of enhanced mudflaps for trucks only reaffirms our steadfast commitment to our customers," he added.

For comprehensive information about the services and innovative truck accessories provided by Go Industries, people can visit the company's official website. It has an array of resources designed to assist customers, such as product instructions, informational articles, a complete product catalog, warranty specifics, and instructional videos.

Maintaining a dynamic connection with its customers through social media channels like Twitter, Facebook, YouTube, Pinterest, and Instagram, Go Industries also offers newsletter subscriptions for those who want updates delivered straight to their inboxes. In step with modern payment trends, Go Industries now accepts cryptocurrencies.

Go Industries continually surpasses expectations in service and product quality in the aftermarket industry. The introduction of the enhanced dually truck mud flaps once again underlines their commitment to providing customers with innovative solutions that value reliability and return on investment.
