Lafayette Medspa Upgrades Microneedling Services with SkinPen® Elite

April 16, 2025

April 16, 2025 - PRESSADVANTAGE -

Lafayette, LA?J. Kevin Duplechain MD, FACS, and the team at Laser Skincare of Louisiana are proud to announce a significant enhancement to the Lafayette medspa?s microneedling treatments with the addition of SkinPen® Elite, the latest and most advanced technology available from the makers of SkinPen. As Louisiana?s trusted destination for aesthetic innovation, the practice prioritizes investments in best-in-class treatments so that patients receive safe, effective care with exceptional results.

?We are excited to offer our wonderful patients even stronger skin rejuvenation results by using the next generation of microneedling technology,? said Dr. Duplechain, Lafayette cosmetic surgeon and medical director of Laser Skincare of Louisiana. Our goal is always to deliver the highest standard of care?and upgrading to SkinPen Elite is part of that ongoing commitment to excellence.?

SkinPen by Crown Aesthetics was the first FDA-cleared microneedling device, and it is widely recognized for its ability to stimulate collagen production and improve the appearance of fine lines, wrinkles, acne scars, and overall skin texture. The new SkinPen Elite builds on this legacy by offering enhanced ergonomics, a more refined design, and precision-engineered depth control?all of which contribute to improved customization,

better patient comfort, and outstanding treatment consistency.

Unlike traditional rollers or imitation microneedling pens, SkinPen Elite uses medical-grade, single-use needle cartridges and is built with proprietary technology that delivers controlled micro-injuries to the skin. These micro-injuries trigger the body?s natural healing response, encouraging new collagen and elastin formation without the need for heat energy, chemicals, or more invasive procedures.

SkinPen Elite is an ideal solution for patients looking to smooth fine lines and wrinkles, diminish acne scars and surgical scars, improve skin tone and skin texture, reduce the size of enlarged pores, or revitalize dull or aging skin. This device is safe for all skin types and is often performed as part of a customized skin rejuvenation plan at Laser Skincare of Louisiana. Most patients notice an improvement in their skin?s tone and texture after just one treatment, with full results developing over several sessions. Treatments typically require little to no downtime, making it a convenient option for busy professionals and parents.

Dr. Duplechain commented, ?Microneedling has been one of the most popular treatments at Laser SkinCare of Louisanna because patients see significant improvements in common skin concerns without the price or recovery of more intense procedures. SkinPen Elite is personalized both in treatment depth and the number of treatments we recommend?some patients may need just one or two treatments while others may need three or four treatments to fully address their concerns. This flexibility prevents over-treating the skin or costing patients more time and money than is necessary.?

As a leader in both surgical and non-surgical facial rejuvenation, Dr. Duplechain verifies that every device and product used in his practice meets rigorous clinical and safety standards. SkinPen Elite?s sterile, single-use cartridges and hands-free charging system help maintain a sanitary, streamlined treatment protocol that patients can feel confident in.

Beyond the upgraded technology, the medspa continues to distinguish itself through its team of highly trained and licensed medical aestheticians, personalized treatments, and warm, patient-focused environment.

?While the tools we use are important, it?s the patient experience and the results we achieve that truly matter,? Dr. Duplechain explained. ?SkinPen Elite simply gives us another way to deliver the exceptional outcomes our patients deserve.?

Laser Skincare of Louisiana is currently welcoming new and returning patients to experience the transformative skin rejuvenation results of SkinPen Elite microneedling. To learn more or schedule a consultation, visit or call the Lafayette cosmetic surgery center and medspa at (337) 456-3282.

  "description": "Dr. J. Kevin Duplechain is a board-certified cosmetic surgeon and facelift expert in Lafayette, LA. With Dr. William Ishee, his practice has offered face and body cosmetic surgery to patients from Baton Rouge, Alexandria, and beyond for 25+ years. The practice also houses a med spa, Laser SkinCare of Louisiana, which offers non-surgical treatments and procedures.",
  "disambiguatingDescription": "J. Kevin Duplechain, MD, FACS is a premier cosmetic surgeon in Lafayette, Louisiana, and one of the very few in the region with his level of credentialing. He is a Diplomate of the American Board of Otolaryngology ? Head and Neck Surgery, the American Board of Facial Plastic and Reconstructive Surgery, and the American Board of Cosmetic Surgery. In his more than 25 years of surgical experience, he has earned a reputation as an excellent choice for cosmetic and reconstructive procedures. Dr. Duplechain helps patients improve their appearance and confidence with a full range of cosmetic surgery procedures, including facelift, rhinoplasty, breast augmentation, and mommy makeover. The testimonials of his past and current patients, as well as our real patient stories, can help you get a better idea of the quality of care you can expect from Dr. Duplechain. Since the age of 6, Dr. Duplechain has known he wanted to be a physician. He began pursuing his dream at Louisiana State University Medical School, earning his medical degree in 1985. He then completed his residency training in general surgery through the Ochsner Medical Foundation, with health centers around the New Orleans area, and in Otolaryngology ? Head and Neck Surgery at Tulane University Medical Center. During his residency at Tulane University, Dr. Duplechain had the distinctive privilege to observe world famous surgeons like Dr. Jack Anderson and Dr. Calvin Johnson. These surgeons are considered to be pioneers in rhinoplasty and facelift, and they are some of the surgeons that helped Dr. Duplechain solidify his interest in the field of cosmetic surgery. In 1992, Dr. Duplechain was certified by the American Board of Otolaryngology ? Head and Neck Surgery. Since then, he has continued his medical education, earning certification in Facial Plastic and Reconstructive Surgery in 1995 and scoring one of the highest scores on the oral examination of the American Board of Facial Plastic Surgery during that examination year. Continuing his education process, Dr. Duplechain eventually became certified by the American Board of Cosmetic Surgery. Dr. Duplechain believes that staying on top of advancements in the medical field keeps his skills sharp and benefits his patients. For that reason, he regularly attends medical

conferences as both a student and a teacher?learning from other experts and teaching courses about techniques he has developed. He?s a frequently invited guest at major aesthetic meetings throughout the country. In addition to running a full-time cosmetic surgery practice, Dr. Duplechain has served in many different capacities both locally and nationally. He has served in many board positions, including as president of the Medical Executive Committee of physician-owned hospital Lafayette Surgical Specialty Hospital, and he is co-founder and managing partner of Laser SkinCare of Louisiana, which offers the latest techniques in skin rejuvenation. Dr. Duplechain currently serves as president of the American Academy of Cosmetic Surgery (AACS), for which he has also helped organize and teach many surgical workshops, including an annual cadaver dissection course. The American Academy of Cosmetic Surgery is one of the largest educational organizations for physicians interested in cosmetic surgery and was founded over 40 years ago by Harvard-trained plastic surgeon Dr. Richard Webster. Dr. Duplechain also directs an annual AACS-certified fellowship training program, in which he offers hands-on cosmetic surgery training to surgeons specializing in cosmetic surgery after their residency. In the past, he has served as chairman for the American Society of Cosmetic Laser Surgery and has held various leadership roles, including secretary and treasurer, for the American Board of Cosmetic Surgery. As a member of the American Academy of Facial Plastic and Reconstructive Surgery, he has served on the emerging trends committee and volunteered with Face to Face humanitarian programs providing needed reconstructive surgeries pro bono. He also was a member of the Young Surgeon?s Committee for the American College of Surgeons, among other contributions.",
