

Callus Remover By Care Me Now Discounted On Amazon For Limited Time

June 10, 2015

June 10, 2015 - PRESSADVANTAGE -

Care Me has released their electric callus remover on Amazon at a significant discount of 22%. The device, which has today received over 600 positive reviews, is now a five star rated product. The brand of Care Me has been synonymous for some time now, and it is expected this will continue.

"Our electric callus remover has been available on Amazon for some time now", says a representative from Care Me. "It has been popular for quite some time now, and we felt it was only fair to our customers to deliver it at a limited time only discount of 22%. The device, which usually costs \$44.99, is now available for just \$35. We expect that even more people will soon be familiarizing themselves with the brand of Care Me!"

The electric callus remove prides itself on being far more powerful than a standard AA battery operated foot file. It quickly and efficiently shaves up all the tough, coarse and hard skin on callused feet. Furthermore, when purchased on Amazon, people receive an extra bonus roller for free. The results are what you would expect from a professional pedicure or spa. Furthermore, the device comes with a full money back guarantee.

The reviews for the Care Me electronic callus remover are overwhelmingly positive. "Last month, my feet took a real beating....lots of travel, a 30-day walking challenge, and more", says customer G. Parker. "Not to mention winter always does a number on my skin. So, after one too many nights of my rough feet scratching the sheets, it was time to put this rechargeable callus remover the test. I took the protective cover off, turned it on and the roller started spinning (40 times a second)! I applied the roller to my heel and in just under 3 minutes, my foot was transformed. It truly was that easy. I was amazed at the difference!"

The callus remove is incredibly powerful, as it uses a rechargeable battery that can be recharged over 1,000 times. This also makes it very economic, as well as being kind to the environment. It comes with two coarse rollers that will enable people to get rid of most of the hard skin on their feet for ages. Once the rollers runs out, Care Me has more available on their website. One of the things that really makes it special, however, is that it is waterproof, which means it can be used in the shower or the bath, as part of a pampering regimen.

The Care Me brand prides itself on delivering high quality products that allow people to bring the spa home. They have a YouTube channel on which all their products, as well as their vision and mission, is fully explained. They also run frequent special offers, such as the current 20% offer for those who sign up on their website. Those who want to stop their feet from becoming unsightly this summer are encouraged to check Care Me and their products out.
