

Re Coffee Filter Launched On Amazon

February 24, 2017

February 24, 2017 - PRESSADVANTAGE -

Walnut, California based company, Protiga Group, has recently launched a new product onto the Amazon marketplace. The company's Re Coffee Filter has become available through the marketplace. Sarah Dykes from Protiga Group says, "If people love Keurig-brewed coffee, yet can't find the proper drinking cup, this product is a set of 5 reusable coffee cups that fits most Keurig Brewers."

The company's Re Coffee Filter is recommended to filter all kinds of coffee that is compatible with most Keurig Brewers models. The product which can be seen at <https://www.amazon.com/dp/b01kctaqys> is made of food-grade, BPA-free ABS and stainless steel that makes them reusable for years so people won't need to waste their money for a reusable coffee filter according to Sarah Dykes.

She states that the coffee filter cups is equipped with an injection filter holder with 0.004" diameter and can save any coffee powder up to 80%. "If people would like to stop wasting their money on a disposable coffee filter, then they will need something that is durable and will last them for years like this," says Sarah Dykes.

"People can use it to filter their morning coffee everyday and it can save them up to 80% of any coffee powder they're using," Dykes states. Protiga Group designed the coffee filter cups to be durable and washable to make coffee-brewing easier for their customers.

The company states that their new product can fit with most Keurig-Brewer series such as Keurig 2.0 K200, K250, K300, K350, K360, K400, K450, K460, K500, K550, K560 and 1.0 brewer series. As well as previous models K45, K75, B60, B70, B130, B140, B150, K40, B40, K60, B145, K150, K70, B30, K145, B44, K155, B155, B200 and B3000. More can be seen on the company's Amazon seller's page.
