Advanced Towing Emergency Roadside Assistance Services in Hialeah FL Steps Further

October 30, 2019

October 30, 2019 -
As part of its wider plans to rebrand, Advanced Towing has debuted its newly improved emergency roadside assistance services in Hialeah FL. The much-anticipated opening gives the motorists in and around the Hialeah region a better option when looking for emergency help if they experience car problems along the road.

Hialeah which has one of the largest Spanish-speaking communities in the US is also named as one of the top five cities with the worst drivers. Car troubles and breakdowns are very frequent. While the city may have plenty of auto repair service providers, the launching of Advanced Towing?s improved emergency roadside solutions will coerce other service providers to level up and provide better services to the people.

The company representative, Keenan Bernard, says, ?The unveiling of our newly improved roadside solutions is timely because of the rise of car road breakdowns across the city of Progress.? He also added that the company wishes to further consolidate its relationship with the citizens of Hialeah, who have been faithfully patronizing their services for many years. To learn more about the company, please follow this link: http://gmbp.in/u/5db9e8a9510ea.

The company has developed a streamlined workflow that involves a quick yet thorough inspection of a car to accurately identify problems. Their technicians also determine the most cost-efficient way to approach car troubles. Aside from the customary flat tire change, car lockout assistance, battery jumpstart/ replacement, and fuel solutions, their technicians can also provide simple car troubleshoots. They are also quick to decide whether to fix the car, tow it or have it repaired properly to the nearest auto mechanic. The company has built its success over the years based on its worker?s vast professional experience. They have successfully accomplished numerous jobs for years, learning and keeping abreast of the industry's evolving trends, techniques, and technologies.

A fundamental feature of Advanced Towing?s new services is the faster response time of its emergency workers. The company has deployed more standby teams in identified strategic areas in the Hialeah region to allow them to respond to the customer faster. Moreover, the company employs local professionals who have a familiar feel of the neighborhoods of Hialeah from Allapattah, Tamiami, Miramar, Alameda to Pennsuco and Opa-locka. Bernard comments, ?We are confident that customer wait time for our roadside mechanics will be reduced to less than 30 minutes after calling.? For a complete list of their service areas, please visit link: https://sites.google.com/site/advancedtowinghialeah.

Advanced Towing?s emergency services are available 24-7. The company has ensured that it has enough personnel so that it operates round the clock. ?At night we are equally prepared to receive the same kinds of calls that we would do during the day. We also have the same high tech equipment and skilled personnel to perform our emergency roadside assistance services,? says Bernard.

What continues to set Advanced Towing apart from competitors throughout the years is its ability to keep its prices affordable without compromising quality and values. Other service providers take advantage of customer?s emergency situation. The company makes every effort to provide a fair price to customers by implementing upfront pricing. There are zero surprising fees attached to the bill once customers received it. In this way, all customers are assured to have access to fast, quality, reliable emergency roadside services 24-7.

The company wants to express their sincere gratitude to the driving public in Hialeah, FL for their unremitting patronage for years. ?We are pleased for having made Advanced Towing the premier choice for towing and roadside assistance services. We will continue to commit ourselves to provide you with the best service at the most economical prices." Some articles about the services provided by the company can be found at http://gmbp.in/u/5db9e9e2ab5a5.
