

Carrollton Injury Rehab & Chiropractic Offers Slip And Fall Injury Treatment

March 22, 2017

March 22, 2017 - PRESSADVANTAGE -

Carrollton Texas offers solutions which are focused on slip and fall injury treatment and rehabilitation. The methods used are natural and non-invasive.

Carrollton TX: Carrollton TX chiropractic is pleased to announce that it has the techniques and skills to provide natural solutions for slip-and-fall injuries. Slips are common injuries to be found around the workplace. They can also be the result of uneven pavement, liquids on the floors, or objects left in walkways. Such injuries can occur at home, in the workplace or in commercial establishments. The injuries can range in location and severity. Solutions for the injuries depend upon the severity and location or the damage.

A slip-and-fall injury can occur from the strain on various body parts that occurs when the balance is affected during the course of the slip. Individuals attempt to catch themselves and may throw up an arm or unintentionally twist the back, hips or knees to try to avoid the fall. The other major injury which occurs is the impact when the various body parts contact the floor or the ground. With enough force, the bones can be broken, ligaments torn or other major painful conditions occur.

According to the professionals at the Carrollton practice, "It is important to be examined soon after experiencing this type of injury. The nearest Emergency Room for immediate care is the first stop. Afterwards, the Carrollton, Texas Rehab and Chiropractic clinic professionals should be consulted so that we can design a customized rehabilitative approach which will get you back on your feet again and back to work, classes or fun."

Some of the help which the center can provide includes facilitating victim transportation, evaluation of accident victims and diagnosis, treatment and referrals as required. The team will file the appropriate medical reports and provide medical referrals. Qualified attorneys can be referred. The team offers assistance with insurance claim preparation and filing and provides care on credit. The clinic accepts most major medical health insurance, workers compensation and letters of protection, as well as auto insurance, MedPay and Personal Injury Protection (PIP).
