Imperial Crane Expands Catalog For Rentals In Chicago

January 22, 2020

January 22, 2020 -
Chicago, Illinois based Imperial Crane Services, Inc., a company that is considered one of the best providers of crane rentals in Chicago, is pleased to share that they continue to expand the catalog of cranes they have available to rent. The company has been in the industry since 1969, earning a distinguished reputation for their expertise, excellent services, and their commitment towards finding a bespoke solution for each of their clients.

Gina Kaktis, a representative of Imperial Crane Services, says, "While we already offer the broadest selection of cranes and other construction machinery, we still strive to expand our catalog. We want to offer more options that fit each of our client's needs, allowing them to choose freely according to the best price, brand, or specifications. To this purpose, we have enlisted several new models of cranes, each under a different category, that should address any requirements they have."

While Imperial Crane Services rents and sells a broad variety of construction machinery, their most popular service is the sale and rental of new and used cranes. The convenient access that they offer, as well as the quality of their machinery, is why Chicago businesses and others around the country continue to choose their services. Imperial Crane takes great pride in this, as they maintain that their goal has always been to provide the best equipment at a fair price. Their rent-to-own option is another factor that plays into the company's

popularity among their clientele, as few companies allow their customers to buy equipment after a few months of rental at a discounted price.

Among the diverse variety of construction equipment that Imperial Crane Services sells and rents, the company has announced that they also have telehandlers for sale in Michigan. While this is not their primary location, the company states that they can still help their clients find the piece of equipment that fits their needs best, making it their one-stop-shop to get all of the machinery they require.

Imperial Crane Services complements their rent and sales of construction machinery with other services that can help their clients complete their construction projects on schedule and within budget. These services range from the dispatch of a qualified team of professionals who are capable of handling heavy machinery to the installation of the technology necessary to monitor and plan construction projects. They also offer project management services to improve productivity within a given client's workforce. Additionally, they provide Crane Safety Training Courses, instructing attendees in the correct handling of their equipment (in accordance with OSHA regulations).

One of their most recent client testimonials describes the experience of Bryce Peterson, the Director of Equipment Operations at Wanzek Construction, who says, "I?ve been aware of Imperial Crane Services for the past couple of years from peers in the industry. Imperial Crane Services has a reputation for having a lot of high-quality equipment, so we chose the company for that reason. The wind projects are not the first time we?ve utilized Imperial Crane Services? cranes. We?ve worked with them in the past and will continue to work with them in the future."

Another testimonial, written by Keith Splitgerber, Sr. Project Manager of Omega Demolition, says, "Thank you for your continued efforts to provide Omega with excellent equipment, quality operators, and superior customer support to continually fulfill Omega?s project needs. Imperial is a highly regarded and valued resource for Omega Demolition. Additionally, Omega would like to thank Imperial for providing additional training and support during Omega?s Safety Meeting this past week. Omega?s ongoing pursuit of the highest levels of safety on all of its projects is obviously echoed by Imperial."

Those who wish to rent/buy construction machinery in Chicago at a discounted price, or hire the veteran company?s emergency crane services, can refer to Imperial Crane's website to learn more. Contact information and other details on the company?s activities can be found here as well. Furthermore, the company invites interested parties to reach out to Gina Kaktis of Imperial Crane Services, Inc. to follow up on any inquiries.
