

Natural Sunscreen Mosquito Repellent Children Friendly Now Available On Amazon

June 24, 2015

June 24, 2015 - PRESSADVANTAGE -

Deon Bryan, spokesperson for Younger Yu, has announced that their organic sunscreen with mosquito repellent is now available on Amazon. He added that the company is also offering 20% off the regular price, which can be applied by typing the following discount coupon code: YU33SUNS.

Deon stated that one of the unique features of their Natural Sunscreen Bug Repellent 3 in 1 is that it acts as a mosquito repellent, sunshield and moisturizer, all in one bottle. Younger Yu designed the repellent to be light and easy to apply, which they feel will be especially handy for parents who need to apply it on children and babies. The company stated that the repellent is also Deet free, and all of the ingredients are natural, making it safe to use on delicate and sensitive skin as well. Daniel Antrup, a customer who purchased The Younger Yu Natural Sunscreen Bug Repellent 3 in 1, wrote the following review,

"This organic combination sunscreen, insect repellent, and moisturizer is absolutely wonderful. It's not harmfully filled with chemicals, and like I just said, organic. Think that explains every reason why you should consider this one over others. Recommend to everyone in need."

Younger Yu said that when customers buy this product, that they won't feel that they have gained something just because they got it at a 20% off discount, but rather, because of how effective it is. They added that customers will actually appreciate the convenience of not having to carry more than one bottle around, which can be a real space saver when their bags only allow for limited amount of items to tag along on those hikes, picnics or any other type of outdoor activity. The company said that a lot of care was put into researching and testing every selected natural and organic ingredient to make sure that their product was safe to use. They added that the challenge was to achieve this while still finding the right ingredients to complement each other in order to provide complete protection.

An example of some of the ingredients that is used in their natural screen bug repellent 3 in 1 are organic apricot oil, organic sweet almond oil, MSM, vitamin E, vitamin A, grapefruit seed extract essential oils of citronella and lemon, tea tree oil, organic aloe extract 200:1, and others. Younger Yu said that in order to get the best results from their product, it needs to be applied liberally 30 minutes before exposing the skin to the sun.

When customers apply the 20% off instant discount coupon through the Amazon store, they will be saving a total of \$5.39, as they will be buying the product for \$21.58. For more information on Younger Yu and their natural screen bug repellent 3 in 1, customers can go directly to their Amazon storefront.
