

Protiga Group Launches Hi Copper Mug On Amazon

April 03, 2017

April 03, 2017 - PRESSADVANTAGE -

Walnut, California based company, Protiga Group, has recently launched a new product onto the Amazon marketplace. The Hi Copper Mug is now available through the marketplace. Sarah Dykes with Protiga Group says, "This product can keep tea, soda, or other drinks to stay cold or hot."

The product which can be seen at <http://amzn.to/2nUZBPD>, is made of premium stainless steel lining and copper finish to resist tarnish. It was precisely hammered for its anti-bacterial ion utility.

Sarah Dykes also states this product comes with solid 18 oz capacity to fit anything from beer to iced tea, all with ice cubes without risk of spilling. She adds, "The nature of copper finish that spreads temperature evenly will keep the tea, soda, or water cold. Only a few ice cubes required to chill down."

Protiga Group designed their Hi Copper Mug with elegant design which contains no nickel lining on the rim which reflects the pure beauty of the copper. More can be seen on the company's Amazon seller's page.
