

Heirloom Culinary Offers A Free Cookbook To All Customers Who Buy Their Stainless Steel Kitchen Shears Through Amazon

June 15, 2015

June 15, 2015 - PRESSADVANTAGE -

Jack Liguori, who is the co-founder of the company, Heirloom Culinary, has announced that they will be giving a cookbook, as a free bonus, to all customers that buy their stainless steel kitchen shears through Amazon. He said that the free bonus is a cookbook called, 191 Secret Italian Family Recipes, which is valued at \$15.75. When customers receive their kitchen shears, they will find an insert in the box of their product that contains the instructions on how to download their eBook.

Heirloom Culinary stated that they are excited about this incentive because their high quality heavy-duty kitchen shears will fall into the hands of more customers, who will then be able to experience why they feel these scissors are one of the best on the market.

Jack Liguori stated that there is good reason why their kitchen shears are chef and Cook approved. The all-purpose scissors can be used by left and right handed people, which the company feels is one of the

reasons why they are so comfortable to use.

The heavy-duty kitchen scissors by Heirloom Culinary has been designed to carve, chop herbs, and butcher all types of meats. The kitchen shears can also be used for crafts, scrapbooks, and to cut metal. The company said that their product can even be used as pruning shears. One customer wrote the following review on Amazon,

"As soon as you remove them from the silk laced box you can tell these is a quality product. I was so tired of having to replace kitchen scissor after scissor! These are simply amazing and so worth the cost. Now that I am retired, I spend much of my time in the kitchen, and there is nothing like having quality tools. Yes you will pay more than a pair of "KitchenAid" but boy there is a huge difference. They fit well in the palm of your hand, are comfortable, and man are they sharp."

One of the main features of the kitchen shears is that it has a heavy-duty, 4mm stainless steel running all the way through. The reason for implementing this design was to prevent broken handles, and the company is proud to report that their design worked out very well. They said that no matter how much a customer opens the blades, the scissors will never come apart, and because of the high grade stainless steel, there is no chance that the scissors will rust. The company urges customers to Check it out on Amazon. Heirloom Culinary also wrote the following,

"You can be very proud to own, or give these rugged high quality scissors that can be passed down from generation to generation. And they make a perfect wedding gift that reflects style and taste."

The kitchen shears also have lockable spring opening handles, which is good news for people that suffer with arthritis. Heirloom Culinary said that they have so much confidence in their product that they are willing to give a lifetime guarantee to every customer that buys their kitchen shears. If at any time a customer is not happy with the product, they can return it, with no questions asked, and the company will send them a brand-new pair. For more information on these kitchen shears, customers are urged to Click here to see it.
