April 10, 2017 - PRESSADVANTAGE -

Sullivan's O'Neill's Chevrolet Buick in Avon, Connecticut, has announced that they will soon be receiving several 2017 Chevrolet Camaro ZL1 vehicles. The Camaro ZL1 is a special edition Camaro designed with the driving and racing enthusiast in mind.

Sean Sullivan, President and General Manager for the car dealer, states that the new Camaro is built to go head to head with the most advanced sports cars. He says that the 650 horsepower supercharged 6.2L V8 engine will not disappoint enthusiasts and says that the vehicle is available in a paddle shift 10 speed automatic and comes in standard coupe or convertible.

The president of the Chevrolet dealer in CT says, "You're in for an amazing adventure in this car. It's got everything you could ever want in a muscle car, including the ability to go from zero to 60 in about three seconds."

"We can't wait to get these in our inventory," Sullivan states. "This is the kind of car that you dream of owning from the cradle and we expect many customers to want to come and take one for a test drive. It's a

powerhouse and a beautiful car overall. It's just everything you would want in a sports car."

The Chevrolet and Buick dealer in CT says that the engine is the same as the one found in the Corvette Z06 and states that it offers more power than one could ever want. He also states that the iconic Camaro body style is intact in this newer model and says that anyone who has always loved a Camaro is going to want to take a look at this new powerhouse. While the dealership did not state how many of these new Chevy Camaro cars they would be getting in stock, Sullivan did state that they would have enough for muscle car enthusiasts to "come check them out and take one for a spin."

Sullivan's O'Neill's Chevrolet Buick offers a wide selection of new and used vehicles in a number of models. Those interested can visit the dealership online or visit them at their Avon location to learn more about when the new Camaro will be arriving.
