

Perfecta's Travel Coffee Mug Durable Double Internal Wall Just Released On Amazon

June 16, 2015

June 16, 2015 - PRESSADVANTAGE -

Kadri Egbeyemi, spokesperson for the company InterWeb Marketing LLC, has announced that the latest product from Perfecta, which is a Travel Coffee Mug that has durable cover and durable wall internal lining, is now available to buy on Amazon. The travel coffee mug has a sleek design that comes in the color gray.

Kadri stated that one of the main features customers will appreciate with the latest Perfecta travel coffee mug is that it comes with a durable lid and is virtually unbreakable. The sleek designed coffee mug holds up to 16 ounces of liquid, and is perfect for hot and cold beverages. Perfecta wanted their travel coffee mug to be used for more than just coffee, because they understood that some customers preferred other drinks, and the drinks were not always hot. The goal behind the design of this product was to keep any beverage, whether it is cold or hot, inside the bottle at a consistent temperature that it originally had when poured inside. To get the most effective insulation from the coffee mug, Perfecta highly recommends that customers pre-chill or preheat the mug before using it, and this can be achieved by filling it with hot or cold water, then covering it up for a few minutes before pouring the water out again. One customer wrote the following review on Amazon,

"I got this mug for my hubby. He drink coffee or chocolate milk in the morning while he drives to work. He wanted something which keeps his drink hot. This mug is durable and nicely made. It has a sleek look. It came in a cute box and shipping was fast. The mug is in white and black color. The part to open and close the mug works great. My hubby liked it a lot and no complaints from him..." Check it out

Perfecta designed their coffee mug to fit perfectly in most automobile cup-holders without shaking. Kadri added that the Travel Coffee Mug won't crack after light use after a few months like other brands do, and there is also no chance of paint coatings peeling off. The interior and exterior of the cup has also been enforced with durable stainless steel. Another customer wrote the following review :

"This is a very cute slim line coffee mug. The seal on the lid is good and it stays put when tipped. It has a metal/plastic design that seems pretty sturdy. No spill is great for me since I have tremors and cannot stop

throwing things once in a while by accident. It is so embarrassing because people all look and stare when you do it like your crazy. The colors of this mug are silver and plastic with a black lid. It is a 16oz mug for hot drinks..."

For those who would like to read more reviews written by other customers who have purchased the product, they are invited to [Check It Here](#). Kadri Egbeyemi stated that there is also a 30 day no hassle free replacement guarantee available for any customer that is not completely satisfied with the product.
