Excel Comfort Inc Takes The Lead In Ductless Systems for Sioux City Iowa

June 09, 2020

Sioux City, Iowa - June 09, 2020 -
Sioux City, Iowa based Excel Comfort, Inc. is pleased to announce that they have been recognized as a preferred Daikin Ductless Installer. They offer the benefit of their expertise and experience to customers who require premium heating and air conditioning services in the greater Sioux City, Iowa area. Excel Comfort has been accepted as a High Efficiency Contractor in the The Ductless Directory, the number one nationally ranked website that helps consumers find qualified ductless heat pump contractors.

The ductless system, also known as a ductless mini split system, is the ultimate problem solver for many home comfort challenges. The Ductless Directory states that homeowners who are troubled by extremely high energy bills, and those who are concerned about indoor air quality as well as irritated by having the presence of hot and cold spots in their house, can find the solution to their problems by installing a ductless heating system.

Similarly, a ductless heating and cooling system is very easy to install because it does not require any ductwork. Ductless systems also offer some of the highest energy efficiencies, with many homeowners being able to save up to 50% on their utility bills. Excel Comfort was recently featured in a video that informs consumers of the benefits of going ductless. Find the video here: https://www.youtube.com/watch?v=2KOE5FSB5ss.

Daikin Ductless units have the additional benefit of being quieter because ductless systems run continuously, effectively eliminating the often noisy and inefficient start and stop cycles used by central air compressors. Such units are also easier to control because, unlike traditional heating systems, each air handler/heat pump in a ductless system has its own thermostat control, allowing the client to manage the comfort of each zone of their home more effectively. According to The Ductless Directory, one of the most important aspects of a Daikin ductless system is that they have a reduced risk of catching fire.

Daikin Air Intelligence is the world leader in Ductless Systems with one of the best warranties in the business. These outstanding warranties are available when purchased from a Daikin Comfort Pro dealer. Excel Comfort is a Daikin Comfort Pro Dealer who is highly trained professional who is equipped with a powerful suite of marketing and business tools to drive sales growth and profits, setting Daikin Comfort Pro dealers apart from the competition.

Meanwhile, Excel Comfort is delighted to have been featured and included on the coveted Ductless Directory platform. The company also points out that they are dedicated to providing only the best heating and cooling services to homeowners of Sioux City Iowa and the surrounding quad city area which includes parts of South Dakota and Nebraska.
