

Back To 30 Greenville Announces Rejuvenation Is Possible Through World-Class Training, Technology, and Innovation

June 15, 2020

June 15, 2020 -

Back To 30, a South Carolina based medical spa network, is pleased to announce that rejuvenation is possible for most people through its program of world-class training, technology, and innovation. Back To 30 is very well-known in the skin care business for combining intensive training and years of experience with the very latest innovative technology.

This approach has earned Back to 30 a multitude of prestigious recognitions within the skin care industry. Back To 30 was voted Best of the Upstate in the categories of Best Medical Spa, Best in BOTOX® Cosmetic and Fillers, Best in Body Contouring, Best in Men?s Health Services, and Best in Hormone Replacement Therapy.

The company?s high-tech approach includes a system of injectable treatments such as B12, ?Skinny Shots,? Juvéderm®, Botox®, Kybella®, and Xeomin® among other options. The aim of these injectable treatments is

to obtain dramatic results while promoting a natural look in an effort to eliminate the need for surgery.

Vitamin B12 is essential for good health and it aids the circulatory and nervous systems to function correctly. Vitamin B12 is known to play a crucial role in red blood cell production and may help to improve mood, energy, and concentration. Its water-soluble nature means that an injection remains in the body longer than an oral supplement.

The "Skinny Shot" is a next generation lipotropic injection with L-Lysine and Leucine and is considered to be the fastest fat burning injection currently available on the market. Juvéderm is used to augment natural facial features such as the appearance of lips, cheeks, and other contours. Botox and Xeomin are used for smoothing fine lines and wrinkles, and Kybella is used to reduce the appearance of double chins.

As one very satisfied customer put it, ?Had a great experience! My Botox was perfect, very natural and not frozen or heavy! Clear and Brilliant helped me with the lines on my forehead that wouldn't go away! Last, but not least, my filler for my cheeks and lips was wonderful! Beckie brought my younger youthful look back exactly how I asked her to and performed it perfectly! I could not be happier!?

Information about all the treatments offered as well as a ?before and after? gallery can be found not only on the company?s website, but also on its Facebook page where visitors can find an interesting selection of articles, comments, and reviews.

Back To 30?s network of medical spas serves communities throughout Upstate South Carolina area including the cities of Greenville (multiple locations), Boiling Springs, and Simpsonville. Hours of service, location, and directions to each spa can be found online at Back to 30?s website.

Back To 30's stated mission is to achieve its vision by combining the highest level of hormone therapy, aesthetic artistry with trusted cosmetic technologies, and premium products from passionate and skilled medical and aesthetic professionals who are dedicated to delivering an extraordinary client experience.

Jane McMillen, a spokesperson for Back To 30, said, ?With all the advances in technology that have become available it is now easier than ever before to look good without having to resort to surgery as a first step. At Back To 30 we use the very latest technology so that our medical team can achieve the best non-surgical skin care results possible. We want all our patients not only to look great, but to feel great.?

Back To 30 certainly considers that using the most up-to-date technology available is the best way to maximize results for all its patients. The company uses computerized facial analysis during an initial consultation so that its team of doctors, nurses, and aestheticians can create and develop individualized treatment plans. Its team has many years of combined experience and together they have performed

hundreds of thousands of injectable treatments and were the first in the Upstate region to offer such a wide variety of state-of-the-art services.

In addition to Back To 30?s website and Facebook pages more directions to its main spa in Greenville can be found in the company?s GMB listing (Google? My Business Listing) in addition to hours of opening and patient reviews.
