Marietta Car Accident Chiropractor Receives Rave Reviews From Community

June 17, 2020

Marietta, Georgia - June 17, 2020 - PRESSADVANTAGE -
Marietta, GA Arrowhead Clinic is pleased to share a 5-Star review from a client that showcases the clinic?s ability to address pain following a car accident. Specializing in the reduction and elimination of chronic pain, Arrowhead Clinic encourages members of the general public to look up what chiropractic services of this nature can do for them, particularly if they are experiencing pain following an accident on the road.

The client, Heather R., shared the Marietta Car Accident Chiropractor review on the Google platform following chiropractic treatment they received after an accident. In the review, they say that their experience with the clinic was, ?Absolutely wonderful all around. Came to Arrowhead after a bad car accident. All the staff have always been so pleasant and helpful. They make you feel like family when you?re here and provide the best service. Facility is clean and welcoming. Have no worries, you will be taken care of here!?

Arrowhead Clinic attributes this swell of community support to the fact that they approach every client?s case on an individual basis. Their safe, gentle, and all-natural take on chronic pain management is complemented by state-of-the-art equipment and techniques that are designed to help an accident victim regain mobility and flexibility even as they work to alleviate any residual soreness and stiffness.

The clinic?s staff utilize spinal decompression therapy that helps take the stress off injured vertebral joints (while simultaneously hydrating the sufferer?s discs). Their clients may also undergo Chiropractic Adjustments (also known as spinal manipulation) in order to promote a full range of motion in their joints, electrical stimulation to help reduce muscular and nerve irritation/pain in specific regions and so on. Cumulatively, these treatments have the effect of vastly reducing their clients? pain symptoms and inflammation, increasing neck and lower back ranges of motion, elevating mental clarity, and even helping them sleep more soundly.

Heather R.?s highly positive opinion is shared by hundreds of other clients, as is made evident by the reviews they have posted online as well. Notably, this specific review is around six months old, which would normally indicate that the business or facility in question rarely receives good feedback if it happened to be the last good review they received. This is by no means the case with Arrowhead Clinic, however. The vast majority of their reviews give the clinic a full 5-Star score, and clients often touch on the great service they received as well as how welcome and comfortable they felt during their time at Arrowhead Clinic.

For instance, a recent review from Sentifica Wilson shares that the clinic employs a ?Great team, they work together and make sure your needs are met. The staff make sure you are comfortable, and they get you in and out. Mrs. Tami normally greets you at the front desk. She is so high spirited with positive energy. She makes sure our treatments are ready by the time of arrival. She is just the sweetest. Then you have Dr. Valerie, who is easy to understand. She goes above and beyond to make sure her clients are being taken care of, and even making sure there is progress. Great office!? Similarly, Amarani Fernando says, ?Tami and John are amazing and so sweet! They?re very welcoming and knowledgeable. Valerie is the best and knows her stuff. I definitely recommend going to give them a visit!? The rest of the clinic?s reviews can be read on their Google page.

?We firmly believe in addressing your pain at its source and taking your entire well-being into account,? says Arrowhead Clinic. ?When you visit our doctors for a consultation, you can rest assured that they will take your individual needs into consideration and work with you to develop a treatment plan that specifically targets your ailments. This is especially important for car crash victims since many things can go wrong with their body that they are not even aware of. Fortunately, we can help you sort out your body?s grievances.?

More information can be found on the clinic?s website. Those interested in exploring their options for treatment are welcome to contact Dr. Valentina Adcock of Arrowhead Clinic - Marietta in order to get started. Learn more here: Car Accident Chiropractor in Marietta, GA.
