Frisco Orthodontist Now Rated Among the Top Five Percent of the Best Reviewed in all of Dallas

September 17, 2020

September 17, 2020 - PRESSADVANTAGE -
As a result of a recent glowing review that was left on them, mBrace Frisco Orthodontics is now among the Top 5% of the best-reviewed orthodontists in Dallas and the surrounding Metroplex areas. This latest 5-star review was one of 181 stellar reviews that appear on this dental practice?s Google Maps Listing. Those at mBrace Frisco Orthodontics are so proud of this accomplishment that they wanted to share it with others. It is a direct reflection of their commitment to providing their patients with outstanding orthodontic services in a relaxed and comfortable clinic setting.

In the above mentioned 5-star review, Chriszelda S, stated, ?Dr. Shireen and her staff have been amazing since day one. We went with my son for a consultation and before leaving we had decided on a treatment plan to start his orthodontist process. Very knowledgeable and passionate about her patients and results. Her staff as well are knowledgeable and caring to each family and patient. Started my son's process and it was smooth and easy. My daughter even went in for a new patient consultation so we can stay ahead of the process. My kids feel very comfortable and happy with the staff and so do I. Hands down the best place to go for your child?s or your orthodontist needs.?

It is also one of the more impressive aspects of this Frisco orthodontist that they are rated so highly even after all of the Google Maps Listing reviews that have been written on them are averaged together. As a testament to this fact, Daniel Cook, an online marketing consultant with The Tactical Co., a firm that specializes in search marketing for small business mentions that, "The impressive thing about mBrace's Google reviews is that the reviews are purely organic. In a market like Dallas that is oversaturated with orthodontics competition, we see a tremendous amount of review farming, practices soliciting fake reviews or reviews from friends and family, or even buying reviews. Dr. Shireen's reviews on the other hand are entirely earned and she places in the top percentile in the number of reviews written and still maintains a perfect 5-star average!" He added that very few businesses of any type can claim to have that high rate of client or patient satisfaction.

This orthodontic practice is led by Dr. Shireen Irani, a 2007 graduate of Texas A&M University Baylor

College of Dentistry who followed that up by attaining her Master of Science in Orthodontics at St. Louis University. The reviews written on mBrace directly reflect her philosophy that patients should be able to receive orthodontic treatments from a team of professionals that is passionate about orthodontics and smiles, but also included in that is taking pride in customer service, patient appreciation, and having fun. She says that when someone becomes part of the mBrace Orthodontics family they will not only receive the quality care they deserve but they will also embark on a memorable journey as their new beautiful smiles are being created.

Dr. Irani specializes in what are known as Invisalign orthodontics. As the name indicates, they are braces that can barely be seen on the wearer. That helps take away some of the stigmas that are associated with teens and adults needing to wear braces. Her practice also has special types of braces that are specifically made for children and a wide selection of other types of orthodontic treatments too. mBrace Orthodontics is also available to treat their patients? emergency orthodontal needs.

In other related news, a recent press release talks about how Dr. Irani even commissioned a renowned local artist to paint a mural on a large interior wall as part of her efforts to create an outstanding atmosphere mBrace Frisco Orthodontics. Those who are interested in learning more about this well-reviewed orthodontics practice can contact them by phone, email, or can schedule a ?free consult? by clicking on that phrase under the menu options on the top of their website?s homepage.
