SEO Houston Pros, based in Houston, TX, and a leader in SEO (search engine optimization) marketing, has announced that they now offer a free SEO audit, which specifically looks at how a potential client's website compares to that of three main competitors. Additionally, those who claim their free SEO audit will now also be provided with a free eBook tutorial. Through their work, SEO Houston Pros caters to local, state, national, and international rankings for its clients.

Garrett Laidler from SEO Houston Pros says: "Figure out how much money and business you are missing out on by not being on page one of Google and/or the top of the search results based on the keywords you are shooting for in your niche/market. Learn what people are searching for and how many of your competitors are in front of them when they really need you."

Focusing strongly on SEO marketing in Houston, the company aims to help clients dominate Google search results. They do this through a variety of key services. These include search engine optimization (SEO) of existing sites, reputation management, web design and optimization, social media marketing, and more. Put together, these services increase online exposure and attract more traffic to the site.

The company is highly respected, which is evident from the many positive reviews that they have received.

Gerry J., for instance, says on the company's Facebook page: "At first I was skeptical about using an SEO company, I just wasn't sure if it was for me. Lucky for me, SEO Houston Pros proved to me that they can run a successful campaign. I didn't understand how amazing it is to be ranked on Google for the right keywords until I was there, and the phonecalls started flooding in."

One of the key areas of focus for SEO Houston Pros is local maps marketing. Garrett Laidler adds: "It is so important to have a local presence in the world of SEO today. This is not just what Google looks for, it is what your clients look for as well. Let us help you get your site in front of your local clients."
