June 30, 2017

June 30, 2017 - PRESSADVANTAGE -

O'Neill's Chevrolet Buick, a Chevy dealer in CT, is proud to announce that they have just received their first shipment of brand new Chevrolet Equinox SUVs for model year 2018. The company has been in business since 1924 and has always been known for having the best and latest vehicles available for their clientele. Indeed, the company has indicated that its mission is to serve the customer at the highest level possible.

"From the moment you contact us through the sales process and on to when you bring your vehicle in for service, we want to make sure that you are 100% satisfied," says Sean Sullivan, President and General Manager of O'Neill's Chevrolet Buick. "We are so proud to be one of the first to be able to offer the new Chevrolet Equinox SUV and already have all tools and systems in place for servicing and parts for this vehicle as well."

O'Neills Chevrolet Buick doesn't just offer sales of new vehicles. They also offer servicing and parts of both new and pre-owned Chevrolet and Buick cars, trucks, and SUVs. The 2018 Chevrolet Equinox is the newest vehicle they currently have in stock. Sean Sullivan adds: "We encourage you to contact us to take this new car for a test drive. You are guaranteed to fall in love with it."

The new Chevrolet Equinox is a compact SUV, marketed as a vehicle that enables people to "have it all". It offers everything people could possibly need to do anything they could possibly want. While only recently released, it is already proving to be one of the most popular compact SUVs on the market.

As a Chevy dealer serving Hartford CT, the company is committed to making sure that each customer receives the best possible service. This is something that is greatly appreciated by their clients. Alberta W.B, for instance, says on the company's website about the service she received for her Equinox: "Service area was prompt, courteous and answered questions to my satisfaction." Meanwhile, Vaughn Y. says about the service provided for his Equinox: "Pleasant personnel . . . and fixed the problem."
